ATF F 6NIA (5330.3D), Application and Permit For Temporary Importation of Firearms and Ammunition By Nonimmigrant Aliens

A. Justification

1. Necessity of Information Collection

Importation of firearms and ammunition by nonimmigrant aliens into the United States is subject to the provisions of Public Law No.105-277 (1998); 8 U.S.C. 1101(a) (15); 18 U.S.C. 922(g)(5); 27 C.F.R. Part 478. Pursuant to Public Law Number 105-277 (1999), Congress created, with certain exceptions, a new category of persons prohibited from shipping, transporting, receiving, and possessing firearms and ammunition. ATF interprets this category to be aliens in a nonimmigrant classification under section 101(a)(15) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15)).

ATF regulations prohibit nonimmigrant aliens from importing firearms, parts or accessories for firearms, or ammunition, unless the nonimmigrant alien qualifies for one of the five exceptions or receives a waiver.

The vast majority of users are Canadians applying to temporarily import firearms into the United States. The form 6NIA asks for additional information (firearms possession license number and/or firearms possession and acquisition license number and firearms registration certificate number) for any firearms imported from Canada. Canadian law requires all firearms to be registered and the person who possess them to be licensed.

2. Needs and Uses

The data provided on this form will be used by ATF to determine: (1) if the firearm(s) and ammunition described on the application qualify for importation; (2) to determine if the nonimmigrant alien falls within an exception to the general prohibition on nonimmigrant aliens possessing firearms and ammunition; (3) to determine if the nonimmigrant alien is otherwise prohibited from possessing firearms and ammunition under the

Gun Control Act, and (4) to serve as authorization for the U.S. Customs Service to allow the listed articles entry into the United States.
