APPENDIX D – SAFETY DATA SHEETS (MANDATORY)

A safety data sheet (SDS) shall include the information specified in Table D.1 under the section number and heading indicated for sections 1-11 and 16. If no relevant information is found for any given subheading, the SDS shall clearly indicate that no applicable information is available. Sections 12-15 may be included in the SDS, but are not mandatory.

1.	Identification	(a) Product identifier used on the label;
		(b) Other means of identification;
		(c) Recommended use of the chemical and restrictions on use;
		(d) Name, address, and telephone number of the manufacturer, importer, or other responsible party;
		(e) Emergency phone number.
2.	Hazard(s) identification	(a) Classification of the chemical in accordance with paragraph (d) of this section;
		(b) Signal word, hazard statement(s), symbol(s) and precautionary statement(s) in accordance with paragraph (f) of this section. (Hazard symbols may be provided as graphical reproductions or the name of the symbol, e.g., flame, skull and crossbones);
		(c) Unclassified hazards (e.g., combustible dust or dust explosion hazard);
		(d) Where an ingredient with unknown acute toxicity is used in a mixture at a concentration $\geq 1\%$, a statement that \times percent of the mixture consists of
		ingredient(s) of unknown toxicity is required.
3.	Composition/information	Except as provided for in paragraph (i) of this section on trade secrets:
	on ingredients	For Substances
		(a) Chemical name;
		(b) Common name and synonyms;
		(c) CAS number and other unique identifiers;
		(d) Impurities and stabilizing additives which are themselves classified and which contribute to the classification of the substance.
		For Mixtures
		The chemical name and concentration or concentration ranges of all ingredients which are classified as health hazards in accordance with paragraph (d) of this
		section.
		For All Chemicals Where a Trade Secret is Claimed
		Where a trade secret is claimed in accordance with paragraph (i) of this section, a
		statement that the specific chemical identity and/or percentage of composition has
		been withheld as a trade secret is required.
4.	First-aid measures	(a) Description of necessary measures, subdivided according to the different routes
		of exposure, i.e., inhalation, skin and eye contact, and ingestion; (b) Most important symptoms/offects, coute and delayed
		(b) Most important symptoms/effects, acute and delayed.
		(c) Indication of immediate medical attention and special treatment needed, if necessary.

Table D.1. Minimum Information for an SDS

5.	Fire-fighting measures	(a) Suitable (and unsuitable) extinguishing media.
	0 0	(b) Specific hazards arising from the chemical (e.g., nature of any hazardous
		combustion products).
		(c) Special protective equipment and precautions for fire-fighters.
6.	Accidental release	(a) Personal precautions, protective equipment, and emergency procedures.
	measures	(b) Methods and materials for containment and cleaning up.
7.	Handling and storage	(a) Precautions for safe handling.
		(b) Conditions for safe storage, including any incompatibilities.
8.	Exposure	(a) OSHA permissible exposure limit (PEL) and any other exposure limit used or
	controls/personal	recommended by the chemical manufacturer, importer, or employer preparing
	protection	the safety data sheet.
		(b) Appropriate engineering controls.
0		(c) Individual protection measures, such as personal protective equipment.
9.	Physical and chemical	(a) Appearance (physical state, color, etc.);(b) Odaria
	properties	(b) Odor; (c) Odor threshold:
		(c) Odor threshold;(d) pH;
		(d) pri,(e) Melting point/freezing point;
		(f) Initial boiling point and boiling range;
		(g) Flash point;
		(b) Evaporation rate;
		(i) Flammability (solid, gas);
		(j) Upper/lower flammability or explosive limits;
		(k) Vapor pressure;
		(l) Vapor density;
		(m) Relative density;
		(n) Solubility(ies);
		(o) Partition coefficient: n-octanol/water;
		(p) Auto-ignition temperature;
		(q) Decomposition temperature;
		(r) Viscosity.
10.	Stability and reactivity	(a) Reactivity;
		(b) Chemical stability;
		(c) Possibility of hazardous reactions;
		(d) Conditions to avoid (e.g., static discharge, shock, or vibration);
		(e) Incompatible materials;
		(f) Hazardous decomposition products.
11.	Toxicological information	Description of the various toxicological (health) effects and the available data used to identify those effects, including:
	mormation	(a) information on the likely routes of exposure (inhalation, ingestion, skin and eye
		(a) information on the fixery foures of exposure (initiation, ingestion, skin and eye contact);
		(b) Symptoms related to the physical, chemical and toxicological characteristics;
		(c) Delayed and immediate effects and also chronic effects from short and long term
		exposure;
		(d) Numerical measures of toxicity (such as acute toxicity estimates).

12.	Ecological information (Non-mandatory)	 (a) Ecotoxicity (aquatic and terrestrial, where available); (b) Persistence and degradability; (c) Bioaccumulative potential; (d) Mobility in soil;
		(e) Other adverse effects (such as hazardous to the ozone layer).
13.	Disposal considerations (Non-mandatory)	Description of waste residues and information on their safe handling and methods of disposal, including the disposal of any contaminated packaging.
14.	Transport information (Non-mandatory)	 (a) UN number; (b) UN proper shipping name; (c) Transport hazard class(es); (d) Packing group, if applicable; (e) Environmental hazards (e.g., Marine pollutant (Yes/No)); (f) Transport in bulk (according to Annex II of MARPOL 73/78 and the IBC Code); (g) Special precautions which a user needs to be aware of, or needs to comply with, in connection with transport or conveyance either within or outside their premises.
15.	Regulatory information (Non-mandatory)	Safety, health and environmental regulations specific for the product in question.
16.	Other information, including date of preparation or last revision	The date of preparation of the SDS or the last change to it.
