

Supporting Statement
Application for Citizenship and Issuance of Certificate under Section 322
(Form N-600K)
OMB No. 1615-0087

A. Justification:

1. The U.S. Citizenship and Immigration Services (USCIS) requires the information collected on the Form N-600K, Application for Citizenship and Issuance of Certificate of Citizenship Under section 322, in order to make a determination whether the applicant has met the citizenship eligibility requirements under section 322 of the Immigration Nationality Act (Act). Upon approval of the application, the child is declared to be a citizen of the United States and is issued a certificate of citizenship by USCIS.
2. The data collected on this form is used by USCIS to determine eligibility for the requested immigration benefit of citizenship. The form serves the purpose of standardizing requests for the benefit, and will ensure that the basic information required to assess eligibility is provided by the applicants.
3. The use of this form currently provides the most efficient means for collecting and processing the required data. To enhance customer service, this form currently resides on USCIS.gov Web site and is fillable and saveable to a local desktop. This form has been designated for e-filing under the Business Transformation Project.
4. A review of USCIS' Forms Inventory Report revealed no duplication of effort, and there is no other similar information currently available which can be used for this purpose.

5. This collection of information does not have an impact on small businesses or other small entities.
6. Section 322 of the Act provides for the issuance of a Certificate of Citizenship to minor adopted or biological children who regularly reside outside the United States and whose United States citizen parent(s) wish to have them acquire United States citizenship. The Form N-600K is used to demonstrate that the child meets certain eligibility conditions while under the age of 18 years. Since Form N-600K provides an organized framework for establishing the authenticity of such eligibility, it is essential for providing prompt, consistent and correct processing of such applications for citizenship. If the information is not collected the applicant cannot show that he or she has met all of the eligibility requirements for admission to citizenship and receipt of a certificate of citizenship.
7. The special circumstances contained in item 7 of the supporting statement are not applicable to this information collection.
8. On June 11, 2009, USCIS published a 60-day notice in the Federal Register at 74 FR 27810. On September 1, 2009, USCIS published a 30-day notice in the Federal Register at 74 FR 45227. USCIS did not receive any comments for this information collection.
