Teacher Questionnaire Mathematics

Grade 8

National Center for Education Statistics U.S. Department of Education 1990 K St., NW Washington, DC 20006

TIMSS & PIRLS International Study Center Lynch School of Education, Boston College

Teacher Questionnaire

Your school has agreed to participate in TIMSS 2011 (Trends in International Mathematics and Science Study), an educational research project sponsored by the International Association for the Evaluation of Educational Achievement (IEA). TIMSS measures trends in student achievement in mathematics and science and studies differences in national education systems in more than 60 countries in order to help improve teaching and learning worldwide.

This questionnaire is addressed to teachers of eighth-grade students, and seeks information about teachers' academic and professional backgrounds, classroom resources, instructional practices, and attitudes toward teaching. Since your class has been selected as part of a nationwide sample, your responses are very important in helping to describe secondary education in the United States.

Some of the questions in the questionnaire refer to the "TIMSS class" or "this class". This is the class that is identified on the front of this booklet, and which will be tested as part of TIMSS in your school. If you teach some but not all of the students in the TIMSS class, please think only of the students that you teach when answering these class-specific questions. It is important that you answer each question carefully so that the information that you provide reflects your situation as accurately as possible.

Since TIMSS is an international study and all countries are using the same questionnaire, you may find that some of the questions seem unusual or are not entirely relevant to you or schools in the United States. Nevertheless, it is important that you do your best to answer all of the questions so comparisons can be made across countries in the studies.

It is estimated that you will need approximately 30 minutes to complete this questionnaire. We appreciate the time and effort that this takes and thank you for your cooperation and contribution.

When you have completed the questionnaire, please place it in the accompanying envelope and return it to the School Coordinator.

NCES is authorized to collect information from this questionnaire under the Education Sciences Reform Act of 2002 (Public Law 107-279, Section 153). You do not have to provide the information requested. However, the information you provide will help the U.S. Department of Education's ongoing efforts to understand better how the educational system in the United States compares to that in other countries. There are no penalties should you choose not to participate in this study. Your answers may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose (Public Law 107-279, Section 183 and Title V, subtitle A of the E-Government Act of 2002 (P.L. 107-347)). Your responses will be combined with those from other participants to produce summary statistics and reports.

This survey is estimated to take an average of 30 minutes, including time for reviewing instructions, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: Stephen Provasnik, National Center for Education Statistics, U.S. Department of Education, 1990 K Street NW, Room 9034, Washington, DC 20006-5650. Do not return the completed form to this address.

Thank you.

TIMSS 2011

By the end of this school year, how many years will you have been teaching altogether?

_____years Please **round** to the nearest whole number.

2

Are you female or male?

Check **one** circle only. Female---Male---

3

How old are you?

	Check one circle only.
Under 25	\bigcirc
25-29	\bigcirc
30-39	\bigcirc
40-49	\bigcirc
50-59	\bigcirc
60 or more	\bigcirc

4

What is the highest level of formal education you have completed?

Check one circle only.

Did not complete high school 🔿	
Completed high school 🔿	
Completed a vocational/technical certificate after high school 〇	
Completed an Associate's degree (AA) in vocational/technical program〇	
Completed an Associate's degree (AA) or Bachelor's degree	
Completed an academic Master's degree, postgraduate certificate program (e.g., teaching) or first professional degree (e.g., law, medicine, dentistry) ()	
Completed a doctorate (Ph.D. or Ed.D) ()	

5

During your college or university education, what was your <u>major or main</u> area(s) of study?

How would you characterize each of the following within your school?

h) Students' desire to do well in school ------

7

8

Thinking about your current school, indicate the extent to which you agree or disagree with each of the following statements.

Check one circle for each line. Not a problem **Minor problem** Moderate problem Serious problem a) The school building needs significant repair ------ O -()c) Teachers have too many teaching hours ----- () - () - () - ()d) Teachers do not have adequate workspace for preparation, collaboration, or meeting with students ----- O-O-O e) Teachers do not have adequate instructional materials and supplies ------ $\bigcirc - \bigcirc - \bigcirc$

How much do you agree with the following statements about using computers in your teaching?

Ci	heck one circle for each line.
	Agree a lot
	Agree a little
	Disagree a little
	Disagree a lot
a) I feel comfortable using computers in my teaching)-0-0-0
b) When I have technical problems, I have ready access to computer support staff in my school)-0-0-0
 c) I receive adequate support for integrating computers in my 	

teaching activities ----- \bigcirc - \bigcirc - \bigcirc

10 ı

How often do you have the following types of interactions with other teachers?

About Teaching the TIMSS Class

11

How much do you agree with the following statements?

12

How many students are in this class?

_____ students Write in a number.

13

How many students experience difficulties understanding <u>spoken</u> English?

______ eighth-grade students in this class *Write in a number.*

14

How often do you do the following in teaching this class?

In your view, to what extent do the following limit how you teach this class?

16

For the typical student in this class, how often do you do these things?

Teaching Mathematics to the TIMSS Class

Questions 17-19 ask about mathematics instruction for the <u>eighth-grade</u> students in the TIMSS class.

19

In teaching mathematics to this class, how often do you usually ask students to do the following?

Check **one** circle for each line.

17 I

In a typical week, how much time do you spend teaching mathematics to the students in this class?

_____hours and _____minutes per week

18

In teaching mathematics to this class, how confident do you feel to do the following?

	Every or almost every lesson
	About half the lessons
	Some lessons
	Never
a) Listen to me explain how to solve problems	-0-0-0-0
b) Memorize rules, procedures, and facts	-0-0-0-0
c) Work problems (individually or with peers) with my guidance	-0-0-0-0
d) Work problems together in the whole class with direct guidance from me	-0-0-0-0
 e) Work problems (individually or with peers) while I am occupied by other tasks 	-0-0-0-0
f) Apply facts, concepts, and procedures to solve routine problems	-0-0-0-0
g) Explain their answers	-0-0-0
 h) Relate what they are learning in mathematics to their daily life 	-0-0-0-0
i) Decide on their own procedures for solving complex problems	- 0-0-0-0
j) Work on problems for which there is no immediately obvious method of solution	-0-0-0-0
k) Take a written test or guiz	

Questions 20-22 ask about resources for teaching mathematics to the <u>eighth-grade</u> students in the TIMSS class.

20

When you teach mathematics to this class, how often do you use the following resources?

21 I

A. Are the students in this class permitted to use calculators during mathematics lessons?

B. How often do students in this class use calculators in their mathematics lessons for the following activities?

A. Do the students in this class have computer(s) available to use during their mathematics lessons?

B. Do any of the computer(s) have access to the Internet?

C. How often do you have the students do the following computer activities?

Mathematics Topics Taught

Questions 23-24 ask about the topics taught and the content covered in teaching mathematics to the <u>eighth-grade</u> students in the TIMSS class.

23

The following list includes the main topics addressed by the TIMSS mathematics test. Choose the response that best describes when the students in this class have been taught each topic. If a topic was taught half this year but not yet completed, please choose "Mostly taught this year." If a topic is not in the curriculum, please choose "Not yet taught or just introduced."

	Check one circle for each line.	
	Mostly taught before this year	
	Mostly taught this year	
	Not yet taught or just introduced	
A. Number a) Computing, estimating, or approximating with whole numbers	0-0-0	
b) Concepts of fractions and computing with fractions	() - () - ()	
c) Concepts of decimals and computing with decimals	0 - 0 - 0	
d) Representing, comparing, ordering, and computing with integers		
e) Problem solving involving percents and proportions		
B. Algebra a) Numeric, algebraic, and geometric patterns or sequences (extension, missing terms, generalization of patterns)	() - () - ()	
b) Simplifying and evaluating algebraic expressions	0 - 0 - 0	
c) Simple linear equations and inequalities	0 - 0 - 0	
d) Simultaneous (two variables) equations		
e) Representation of functions as ordered pairs, tables, graphs, words, or equations		
C. Geometry a) Geometric properties of angles and geometric shapes (triangles, quadrilaterals, and other common polygons)	0 - 0 - 0	
b) Congruent figures and similar triangles		
c) Relationship between three-dimensional shapes and their two-dimensional representations	() - () - ()	
d) Using appropriate measurement formulas for perimeters, circumferences, areas, surface areas, and volumes	() - () - ()	
e) Points on the Cartesian plane	() - () - ()	
f) Translation, reflection, and rotation		
D. Data and Chance a) Reading and displaying data using tables, pictographs, bar graphs, pie charts and line graphs	0 - 0 - 0	
 b) Interpreting data sets (e.g., draw conclusions, make predictions, and estimate values between and beyond given data points) 	0 - 0 - 0	
c) Judging, predicting, and determining the chances of possible outcomes	() () ()	

By the end of this school year, approximately what percentage of teaching time will you have spent during this school year on each of the following mathematics content areas for the students in this class?

Write in the percentage for each.

a)	Number (e.g., whole numbers, fractions, decimals, ratio, proportion and percent)	_%
b)	Algebra (e.g., patterns, equations, formulas and relationships)	_%
c)	Geometry (e.g., lines and angles, shapes, congruence and similarity, spatial relationships, symmetry and transformations)	_%
d)	Data and chance (e.g., reading, organizing and representing data, data interpretation and chance)	_%
e)	Other, please specify:	
		%

Total = 100%

Question 25 asks about mathematics homework for the <u>eighth-grade</u> students in the TIMSS class.

C. How often do you do the following with the mathematics homework assignments for this class?

25

A. How often do you usually assign mathematics homework to the students in this class?

B. When you assign mathematics homework to the students in this class, about how many minutes do you usually assign? (Consider the time it would take an average student in your class.)

Always or almost always
Sometimes

a) Correct assignments and
give feedback to students ----- O
b) Have students correct
their own homework
in class ------O
c) Discuss the homework
in class ------O
c) Monitor whether or not the
homework was completed ----- O
c) Use the homework to
contribute towards

students' grades or marks ----- O — O

Questions 26-28 ask about mathematics assessment for the <u>eighth-grade</u> students in the TIMSS class.

28

How often do you include the following types of questions in your mathematics tests or examinations? Do not include quizzes.

Check **one** circle for each line.

Always or almost always

26 I

How much emphasis do you place on the following sources to monitor students' progress in mathematics?

27 |

How often do you give a mathematics test or examination to this class? (Do not include quizzes.)

Check **one** circle only. About once a week----About every two weeks----About once a month----A few times a year----Never---- Sometimes
Sometimes
Never or
almost never
a) Questions based on recall
of facts and procedures -----b) Questions involving
application of mathematical
procedures -----c) Questions involving
searching for patterns
and relationships -----d) Questions requiring
explanations or

justifications -----

In the past two years, have you participated in professional development in any of the following?

	Yes
	No
a) Mathematics content	- 0 - 0
b) Mathematics pedagogy/instruction	- 0 - 0
c) Mathematics curriculum	
d) Integrating information technology into mathematics	- ()-()
e) Improving students' critical thinking or problem solving skills	- ()-()
f) Mathematics assessment	- 0 - 0
g) Addressing individual students' needs	- 0 - 0

How well prepared do you feel you are to teach the following mathematics topics?

If a topic is not in the curriculum or you are not responsible for teaching this topic you may check "not applicable."

	Not applicable
	Very well prepared
	Somewhat prepared
	Not well prepared
A. Number	
a) Computing, estimating, or approximating with whole numbers	0-0-0-0
b) Concepts of fractions and computing with fractions	$\bigcirc -\bigcirc -\bigcirc -\bigcirc$
c) Concepts of decimals and computing with decimals	$\bigcirc -\bigcirc -\bigcirc -\bigcirc$
d) Representing, comparing, ordering, and computing with integers	$\bigcirc -\bigcirc -\bigcirc -\bigcirc$
e) Problem solving involving percents and proportions	$\bigcirc -\bigcirc -\bigcirc -\bigcirc$
B. Algebra	
a) Numeric, algebraic, and geometric patterns or sequences (extension, missing terms, generalization of patterns)	0-0-0-0
b) Simplifying and evaluating algebraic expressions	- 0 - 0 - 0
c) Simple linear equations and inequalities	- 0 - 0 - 0
d) Simultaneous (two variables) equations	- 0 - 0 - 0
e) Representation of functions as ordered pairs, tables, graphs, words, or equations	$\bigcirc -\bigcirc -\bigcirc -\bigcirc$
C. Geometry	
a) Geometric properties of angles and geometric shapes (triangles, quadrilaterals, and other common polygons)	0-0-0-0
b) Congruent figures and similar triangles	- 0 - 0 - 0
c) Relationship between three-dimensional shapes and their two-dimensional representations	
d) Using appropriate measurement formulas for perimeters, circumferences, areas, surface areas, and volumes	0-0-0-0
e) Points on the Cartesian plane	$\bigcirc -\bigcirc -\bigcirc -\bigcirc$
f) Translation, reflection, and rotation	0-0-0-0
D. Data and Chance	
a) Reading and displaying data using tables, pictographs, bar graphs, pie charts and line graphs	$\bigcirc -\bigcirc -\bigcirc -\bigcirc$
 b) Interpreting data sets (e.g., draw conclusions, make predictions, and estimate values between and beyond given data points) 	0-0-0-0
c) Judging, predicting, and determining the chances of possible outcomes	0-0-0-0

[The following questions are national options that will be added to the questionnaire. They will be formatted and appropriately placed among the existing items.]

1. Mathematics course currently being taught

What mathematics course are you teaching to the TIMSS class?

Fill in one circle only.

Basic or general eighth-grade math
(not algebra or pre-algebra)C
Introduction to algebra or pre-algebra C
Two-year pre-algebra C
Algebra I (one-year course) C
Algebra I (first year of a two-year Algebra I course)C
Algebra I (second year of two-year Algebra I course)C
Geometry C
Algebra II C
Integrated or sequential math C
Other math class C

Thank You

Thank you for the thought, time, and effort you have put into completing this questionnaire.
