

Federal Register Notice that will be published sometime this fall.
Form Number(s): SF-424.
Other Instruments: Information Published with the Notice of Funds

Availability (NOFA) to be published in **Federal Register** in Fall of 2009.
Affected Public: 50 States/Local governments.

Respondent Universe: 32 States/Local governments.
Frequency of Submission: On occasion.

REPORTING BURDEN

Grant program	Respondent universe	Total annual responses	Average time per response	Total annual burden hours
— Application Process	32 States/Local govt	10 grant applications	315 hours	3,150
—Meeting requests with FRA Associate Administrator.	32 States/Local govt	2 requests/letters	30 minutes	1
—Face to Face Meetings with Associate Admin	32 States/Local govt	2 project meetings	2 hours	4
—Revisions to Grant Applications	32 States/Local govt	2 grant revisions	40 hours	80
—Environmental Assessments	32 States/Local govt	10 environmental documents.	80 hours	800
—Close-Out Procedures	32 States/Local govt	10 sets of Close-out documents.	4 hours	40
—Project Reports	32 States/Local govt	10 reports	80 hours	800

Total Responses: 46.
Estimated Total Annual Burden: 4,875 hours.
Status: Regular Review.
 Pursuant to 44 U.S.C. 3507(a) and 5 CFR 1320.5(b), 1320.8(b)(3)(vi), FRA informs all interested parties that it may not conduct or sponsor, and a respondent is not required to respond to, a collection of information unless it displays a currently valid OMB control number.
Authority: 44 U.S.C. 3501–3520.
 Issued in Washington, DC on June 22, 2009.
Kimberly Orben,
Director, Office of Financial Management, Federal Railroad Administration.

BILLING CODE 4910-06-P

collections of information was published on April 16, 2009 (74 FR 17762).
DATES: Comments must be submitted on or before July 27, 2009.
FOR FURTHER INFORMATION CONTACT: Mr. Robert Brogan, Office of Safety, Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1200 New Jersey Ave., SE., Mail Stop 17, Washington, DC 20590 (telephone: (202) 493-6292), or Ms. Nafia Jackson, Office of Information Technology, RAD-20, Federal Railroad Administration, 1200 New Jersey Ave., SE., Mail Stop 35, Washington, DC 20590 (telephone: (202) 493-6073). (These telephone numbers are not toll-free.)
SUPPLEMENTARY INFORMATION:
 The Paperwork Reduction Act of 1995 (PRA), Public Law 104-13, Section 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501–3520), and its implementing regulations, 5 CFR Part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. 44 U.S.C. 3506, 3507; 5 CFR 1320.5, 1320.8(d)(1), 1320.12. On April 16, 2009, FRA published a 60-day notice in the **Federal Register** soliciting comment on ICRs that the agency was seeking OMB approval. 74 FR 17762. FRA received no comments after issuing this 60-day notice. Accordingly, DOT announces that these information collection activities have been re-evaluated and certified under 5 CFR 1320.5(a) and forwarded to OMB for review and approval pursuant to 5 CFR 1320.12(c).
 Before OMB decides whether to approve these proposed collections of information, it must provide 30 days for public comment. 44 U.S.C. 3507(b); 5

CFR 1320.12(d). Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30 day notice is published. 44 U.S.C. 3507 (b)–(c); 5 CFR 1320.12(d); *see also* 60 FR 44978, 44983, Aug. 29, 1995. OMB believes that the 30 day notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect. 5 CFR 1320.12(c); *see also* 60 FR 44983, Aug. 29, 1995.
 The summaries below describe the nature of the information collection requirements (ICRs) and the expected burden. The current requirements are being submitted for renewed clearance by OMB as required by the PRA.
Title: Grade Crossing Signal System Safety.
OMB Control Number: 2130-0534.
Type of Request: Extension of a currently approved collection.
Affected Public: Railroads.
Abstract: FRA believes that highway-rail grade crossing (grade crossing) accidents resulting from warning system failures can be reduced. Motorists lose faith in warning systems that constantly warn of an oncoming train when none is present. Therefore, the fail-safe feature of a warning system loses its effectiveness if the system is not repaired within a reasonable period of time. A greater risk of an accident is present when a warning system fails to activate as a train approaches a grade crossing. FRA's regulations require railroads to take specific responses in the event of an activation failure. FRA uses the information to develop better

DEPARTMENT OF TRANSPORTATION
Federal Railroad Administration
[Docket No. FRA-2009-0001-N-15]
Notice and Request for Comments
AGENCY: Federal Railroad Administration, DOT.
ACTION: Notice and Request for Comments.
SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Requirements (ICRs) abstracted below have been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICRs describe the nature of the information collections and their expected burdens. The **Federal Register** notice with a 60-day comment period soliciting comments on the following

solutions to the problems of grade crossing device malfunctions. With this information, FRA is able to correlate accident data and equipment malfunctions with the types of circuits and age of equipment. FRA can then identify the causes of grade crossing system failures and investigate them to determine whether periodic maintenance, inspection, and testing standards are effective. FRA also uses the information collected to alert railroad employees and appropriate highway traffic authorities of warning system malfunctions so that they can take the necessary measures to protect motorists and railroad workers at the grade crossing until repairs have been made.

Form Number(s): FRA F 6180.83.
Annual Estimated Burden: 8,152 hours.

Title: Bridge Worker Safety Rules.
OMB Control Number: 2130-0535.

Type of Request: Extension of a currently approved collection.

Affected Public: Railroads.

Abstract: Section 20139 of Title 49 of the United States Code required FRA to issue rules, regulations, orders, and standards for the safety of maintenance-of-way employees on railroad bridges, including for "bridge safety equipment" such as nets, walkways, handrails, and safety lines, and requirements for the use of vessels when work is performed on bridges located over bodies of water. FRA has added 49 CFR Part 214 to establish minimum workplace safety standards for railroad employees as they apply to railroad bridges. Specifically, section 214.15(c) establishes standards and practices for safety net systems. Safety nets and net installations are to be drop-tested at the job site after initial installation and before being used as a fall-protection system; after major repairs; and at six-month intervals if left at one site. If a drop-test is not feasible and is not performed, then a written certification must be made by the railroad or railroad contractor, or a designated certified person, that the net does comply with the safety standards of this section. FRA and State inspectors use the information to enforce Federal regulations. The information that is maintained at the job site promotes safe bridge worker practices.

Form Number(s): N/A.
Annual Estimated Burden: 1 hour.
Title: Railroad Police Officers.
OMB Control Number: 2130-0537.
Type of Request: Extension of a currently approved collection.

Affected Public: Railroads.

Abstract: Under 49 CFR Part 207, railroads are required to notify states of all designated police officers who are

discharging their duties outside of their respective jurisdictions. This requirement is necessary to verify proper police authority.

Form Number(s): N/A.

Annual Estimated Burden: 181 hours.

Addressee: Send comments regarding these information collections to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 Seventeenth Street, NW., Washington, DC, 20503, *Attention:* FRA Desk Officer. Alternatively, comments may be sent via e-mail to the Office of Information and Regulatory Affairs (OIRA), Office of Management and Budget, at the following address: oira_submissions@omb.eop.gov.

Comments are invited on the following: Whether the proposed collections of information are necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimates of the burden of the proposed information collections; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collections of information on respondents, including the use of automated collection techniques or other forms of information technology.

A comment to OMB is best assured of having its full effect if OMB receives it within 30 days of publication of this notice in the **Federal Register**.

Authority: 44 U.S.C. 3501-3520.

Issued in Washington, DC on June 22, 2009.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Notice of Informational Filing

For informational purposes only, the Federal Railroad Administration (FRA) is providing notice that it has received an informational filing from BNSF Railway Company (BNSF) to conduct testing of Configuration VI of BNSF's Electronic Train Management System (ETMS) submitted pursuant to Title 49 Code of Federal Regulations (CFR) 236.913. The informational filing is described below, including the submitting party and the requisite docket number where the informational filing and any related information may be found. The document is available for

public inspection; however, FRA is not accepting public comment on the document.

BNSF Railway Company (Docket Number FRA-2006-23687)

BNSF has submitted an informational filing to FRA to begin operational testing of ETMS Version VI on BNSF's Scenic Subdivision. This testing will allow BNSF to obtain the necessary assessments required to amend BNSF's currently approved Product Safety Plan (PSP) for ETMS Version I for a future submittal to the FRA. In addition, this testing will allow BNSF to substantiate the ETMS technology in tunnel operations on freight territories. The informational filing has been placed under Docket Number FRA-2006-23687 and is available for public inspection.

Interested parties are invited to review the informational filing and associated documents at the DOT Docket Management facility during regular business hours (9 a.m.—5 p.m.) at 1200 New Jersey Avenue, SE., Room W12-140, Washington, DC 20590. All documents in the public docket are also available for inspection and copying on the Internet at <http://www.regulations.gov>.

Anyone is able to search the electronic form of any written communications received into any of our dockets by name of the individual submitting the document (or signing the document, if submitted on behalf of an association, business, labor union, etc.). You may review the DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (Volume 65, Number 70; Pages 19477-78).

Issued in Washington, DC on June 22, 2009.

Grady C. Cothen, Jr.,

Deputy Associate Administrator for Safety Standards and Program Development.
