## Draft Instructions for the Proposed New and Revised Call Report Items for 2010

### Schedule RI – Income Statement

#### Memoranda

#### Item No.    Caption and Instructions

- 14**           **Other-than-temporary impairment losses on held-to-maturity and available-for-sale debt securities.** When the fair value of an individual held-to-maturity or available-for-sale debt security is less than its amortized cost basis, the security is impaired and the impairment is either temporary or other-than-temporary. To determine whether the impairment is other-than-temporary, a bank must apply the relevant guidance in FASB Accounting Standards Codification Section 320-10-35, Investments – Debt and Equity Securities – Overall – Subsequent Measurement. This guidance was formerly included in FASB Statement No. 115, *Accounting for Certain Investments in Debt and Equity Securities*; FASB Staff Position (FSP) FAS 115-1 and FAS 124-1, *The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments*; FSP FAS 115-2 and FAS 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments*; Emerging Issues Task Force (EITF) Issue No. 99-20, *Recognition of Interest Income and Impairment on Purchased Beneficial Interests and Beneficial Interests That Continue to Be Held by a Transferor in Securitized Financial Assets*; and FSP EITF 99-20-1, *Amendments to the Impairment Guidance of EITF Issue No. 99-20*.

Report in the appropriate subitem the specified information on other-than-temporary impairment losses on held-to-maturity and available-for-sale debt securities that have occurred during the calendar year to date.

- 14.a**           **Total other-than-temporary impairment losses.** When an other-than-temporary impairment loss has occurred on an individual debt security, the total amount of the loss is the entire difference between the amortized cost of the debt security and its fair value on the measurement date of the other-than-temporary impairment. Report the total other-than-temporary impairment losses on held-to-maturity and available-for-sale debt securities recognized in earnings and other comprehensive income during the calendar year to date.
- 14.b**           **Portion of losses recognized in other comprehensive income (before income taxes).** When an other-than-temporary impairment loss has occurred on an individual debt security, if the bank does not intend to sell the security and it is not more likely than not that the bank will be required to sell the security before recovery of its amortized cost basis less any current-period credit loss, the other-than-temporary impairment loss must be separated into (a) the amount representing the credit loss, which must be recognized in earnings, and (b) the amount related to all other factors, which must be recognized in other comprehensive income. Report the portion of other-than-temporary impairment losses included in Memorandum item 14.a above related to factors other than credit that has been recognized in other comprehensive income (before income taxes) during the calendar year to date.

Exclude other-than-temporary impairment losses on debt securities that the bank intends to sell and on debt securities that it is more likely than not that the bank will be required to sell before recovery of its amortized cost basis less any current-period credit loss, the entire amount of which must be recognized in earnings.

- 14.c**    **Net impairment losses recognized in earnings.** Report Schedule RI, Memorandum item 14.a, less Memorandum item 14.b, which represents the amount of other-than-temporary impairment losses on held-to-maturity and available-for-sale debt securities that has been recognized in earnings during the calendar year to date. For purposes of the Report of Condition, the purpose of a loan collateralized by "stock" is determined as follows:

For example, report advances to banks in foreign countries in the form of "advance agreement" overdrafts as loans to depository institutions in Schedule RC-C, part I, item 2, and overdrafts under consumer check-credit plans as "Other revolving credit plans" to individuals in Schedule RC-C, part I, item 6.b. ## Memoranda

### Item No.    Caption and Instructions

NOTE: Memorandum item 15 is to be completed for the December report only.

**15            Reverse mortgages (in domestic offices).** A reverse mortgage is an arrangement in which a homeowner borrows against the equity in his or her home and receives cash either in a lump sum or through periodic payments. However, unlike a traditional mortgage loan, no payment is required until the borrower no longer uses the home as his or her principal residence. Cash payments to the borrower after closing, if any, and accrued interest are added to the principal balance. These loans may have caps on their maximum principal balance or they may have clauses that permit the cap on the maximum principal balance to be increased under certain circumstances. The reverse mortgage market currently consists of two basic types of products: proprietary products designed and originated by financial institutions and a federally-insured product known as a Home Equity Conversion Mortgage (HECM).

Report in the appropriate subitem the specified information about the bank's involvement with reverse mortgages (in domestic offices).

**15.a          Reverse mortgages outstanding that are held for investment.** Report in the appropriate subitem the amount of HECM and proprietary reverse mortgages held for investment that are included in Schedule RC-C, part I, item 1.c, Loans "Secured by 1-4 family residential properties." A loan is held for investment if the bank has the intent and ability to hold the loan for the foreseeable future or until maturity or payoff. Exclude reverse mortgages that are held for sale.

**15.a.(1)      Home Equity Conversion Mortgage (HECM) reverse mortgages.** Report the amount of HECM reverse mortgages held for investment that are included in Schedule RC-C, part I, item 1.c, Loans "Secured by 1-4 family residential properties."

**15.a.(2)      Proprietary reverse mortgages.** Report the amount of proprietary reverse mortgages held for investment that are included in Schedule RC-C, part I, item 1.c, Loans "Secured by 1-4 family residential properties."

### Memoranda

#### Item No.    Caption and Instructions

**15.b**       **Estimated number of reverse mortgage loan referrals to other lenders during the year from whom compensation has been received for services performed in connection with the origination of the reverse mortgages.** A bank that does not underwrite and fund reverse mortgages may refer customers to other lenders that underwrite and fund such mortgages. Under the Real Estate Settlement Procedures Act and its implementing regulations, a mortgage lender may pay fees or compensation to another party, such as a bank that has referred a customer to the mortgage lender, only for services actually performed by that party.

If the bank receives compensation from reverse mortgage lenders for services the bank has performed in connection with the origination of reverse mortgages granted to customers that the bank has referred to the reverse mortgage lenders, report in the appropriate subitem a reasonable estimate of the number of HECM and proprietary reverse mortgages for which the bank received such compensation during the year. Do not report the estimated amount of referral fee income in these subitems.

**15.b.(1)**   **Home Equity Conversion Mortgage (HECM) reverse mortgages.** Report a reasonable estimate of the number of HECM reverse mortgages for which the bank received compensation for services performed during the year in connection with the origination of HECM reverse mortgages granted to customers that the bank has referred to the reverse mortgage lenders.

**15.b.(2)**   **Proprietary reverse mortgages.** Report a reasonable estimate of the number of proprietary reverse mortgages for which the bank received compensation for services performed during the year in connection with the origination of proprietary reverse mortgages granted to customers that the bank has referred to the reverse mortgage lenders.

**15.c**       **Principal amount of reverse mortgage originations that have been sold during the year.** Report in the appropriate subitem the principal amount of HECM and proprietary reverse mortgages sold during the year that were originated by the bank. Report the principal balance outstanding of the reverse mortgages as of their sale dates, which excludes any unused commitments to the borrowers on the reverse mortgages sold.

**15.c.(1)**   **Home Equity Conversion Mortgage (HECM) reverse mortgages.** Report the principal amount of HECM reverse mortgages sold during the year that were originated by the bank.

**15.c.(2)**   **Proprietary reverse mortgages.** Report the principal amount of proprietary reverse mortgages sold during the year that were originated by the bank.

## Schedule RC-E – Deposit Liabilities

### Memoranda

#### Item No.    Caption and Instructions

- 1.c**        **Fully insured brokered deposits.** Report in the appropriate subitem all fully insured brokered deposits (as defined in the Glossary entry for "brokered deposits") included in Schedule RC-E, Memorandum item 1.b above.

In some cases, brokered certificates of deposit are issued in \$1,000 amounts under a master certificate of deposit issued by a bank to a deposit broker in an amount that exceeds \$250,000. For these so-called "retail brokered deposits," multiple purchases by individual depositors from an individual bank normally do not exceed the applicable deposit insurance limit (currently \$250,000), but under current deposit insurance rules the deposit broker is not required to provide information routinely on these purchasers and their account ownership capacity to the bank issuing the deposits. If this information is not readily available to the issuing bank, these brokered certificates of deposit in \$1,000 amounts may be rebuttably presumed to be fully insured brokered deposits and should be reported in Schedule RC-E, Memorandum item 1.c.(1), below. In addition, some brokered deposits are transaction accounts or money market deposit accounts (MMDAs) that are denominated in amounts of \$0.01 and established and maintained by the deposit broker (or its agent) as agent, custodian, or other fiduciary for the broker's customers. An individual depositor's deposits within the brokered transaction account or MMDA normally do not exceed the applicable deposit insurance limit. As with retail brokered deposits, if information on these depositors and their account ownership capacity is not readily available to the bank establishing the transaction account or MMDA, the amounts in the transaction account or MMDA may be rebuttably presumed to be fully insured brokered deposits and should be reported in Schedule RC-E, Memorandum item 1.c.(1), below.

The dollar amounts used as the basis for reporting fully insured brokered deposits in Memorandum items 1.c.(1) and 1.c.(2) reflect the deposit insurance limits in effect on the report date. At present, these limits are \$250,000 for "retirement deposit accounts" and \$250,000 for other deposit accounts, which takes into account the temporary increase in deposit insurance for other deposit accounts that is in effect through December 31, 2013.

- 1.c.(1)**    **Brokered deposits of less than \$100,000.** Report in this item brokered deposits with balances of less than \$100,000. Also report in this item time deposits issued to deposit brokers in the form of certificates of deposit of \$100,000 or more that have been participated out by the broker in shares with balances of less than \$100,000.

For brokered deposits that represent retirement deposit accounts (as defined in Schedule RC-O, Memorandum item 1) eligible for \$250,000 in deposit insurance coverage, report such brokered deposits in this item only if their balances are less than \$100,000.

- 1.c.(2)**    **Brokered deposits of \$100,000 through \$250,000 and certain brokered retirement deposit accounts.** Report in this item those brokered deposits (including brokered retirement deposit accounts) with balances of \$100,000 through \$250,000. Also report in this item time deposits issued to deposit brokers in the form of certificates of deposit of more than \$250,000 that have been participated out by the broker in shares with balances of \$100,000 through \$250,000.

This item includes both time certificates of deposit and open-account time deposits with balances of \$100,000 through \$250,000, regardless of negotiability or transferability.

which should be reported in Schedule RC-E, Memorandum item 2.b, above.

NOTE: Banks should include as time deposits of \$100,000 through \$250,000 those time deposits originally issued in denominations of less than \$100,000 that, because of interest paid or credited, or because of additional deposits, now have balances of \$100,000 through \$250,000.

**2.d** **Total time deposits of more than \$250,000.** Report in this item all time deposits included in Schedule RC-E, column C, above with balances of more than \$250,000. These IRA and Keogh Plan time deposits will also have been included in Schedule RC-E, Memorandum item 1.a., "Total Individual Retirement Accounts (IRAs) and Keogh Plan accounts."

**2.e**        IRAs include traditional IRAs, Roth IRAs, Simplified Employee Pension (SEP) IRAs, and  
(cont.)       SIMPLE IRAs. Exclude deposits in "Section 457" deferred compensation plans and self-  
directed defined contribution plans, which are primarily 401(k) plan accounts. Also exclude  
deposits in Health Savings Accounts, Medical Savings Accounts, and Coverdell Education  
Savings Accounts (formerly known as Education IRAs).

## **Schedule RC-L – Derivatives and Off-Balance Sheet Items**

#### Item No.    Caption and Instructions

**1**        **Unused commitments.** Report in the appropriate subitem the unused portions of  
commitments. Unused commitments are to be reported gross, i.e., include in the appropriate  
subitem the unused amount of commitments acquired from and conveyed or participated to  
others. However, exclude commitments conveyed or participated to others that the bank is  
not legally obligated to fund even if the party to whom the commitment has been conveyed or  
participated fails to perform in accordance with the terms of the commitment.

For purposes of this item, commitments include:

- (1) Commitments to make or purchase extensions of credit in the form of loans or participations in loans, lease financing receivables, or similar transactions.
- (2) Commitments for which the bank has charged a commitment fee or other consideration.
- (3) Commitments that are legally binding.
- (4) Loan proceeds that the bank is obligated to advance, such as:
  - (a) Loan draws;
  - (b) Construction progress payments; and
  - (c) Seasonal or living advances to farmers under prearranged lines of credit.
- (5) Rotating, revolving, and open-end credit arrangements, including, but not limited to, retail credit card lines and home equity lines of credit.
- (6) Commitments to issue a commitment at some point in the future, where the bank has extended terms, the borrower has accepted the offered terms, and the extension and acceptance of the terms are in writing or, if not in writing, are legally binding on the bank and the borrower, even though the related loan agreement has not yet been signed.
- (7) Overdraft protection on depositors' accounts offered under a program where the bank advises account holders of the available amount of overdraft protection, for example, when accounts are opened or on depositors' account statements or ATM receipts.
- (8) The bank's own takedown in securities underwriting transactions.

## Schedule RC-L – Derivatives and Off-Balance Sheet Items (cont.)

### Item No.    Caption and Instructions

**1**  
(cont.)    (9) Revolving underwriting facilities (RUFs), note issuance facilities (NIFs), and other similar arrangements, which are facilities under which a borrower can issue on a revolving basis short-term paper in its own name, but for which the underwriting banks have a legally binding commitment either to purchase any notes the borrower is unable to sell by the rollover date or to advance funds to the borrower.

Exclude forward contracts and other commitments that meet the definition of a derivative and must be accounted for in accordance with FASB Accounting Standards Codification Topic 815, Derivatives and Hedging (formerly referred to as FASB Statement No. 133), which should be reported in Schedule RC-L, item 12. Include the amount (not the fair value) of the unused portions of loan commitments that do not meet the definition of a derivative that the bank has elected to report at fair value under a fair value option. Also include forward contracts that do not meet the definition of a derivative.

The unused portions of commitments are to be reported in the appropriate subitem regardless of whether they contain “material adverse change” clauses or other provisions that are intended to relieve the issuer of its funding obligations under certain conditions and regardless of whether they are unconditionally cancelable at any time.

In the case of commitments for syndicated loans, report only the bank’s proportional share of the commitment.

For purposes of reporting the unused portions of revolving asset-based lending commitments, the commitment is defined as the amount a bank is obligated to fund – as of the report date – based on the contractually agreed upon terms. In the case of revolving asset-based lending, the unused portions of such commitments should be measured as the difference between (a) the lesser of the contractual borrowing base (i.e., eligible collateral times the advance rate) or the note commitment limit, and (b) the sum of outstanding loans and letters of credit under the commitment. The note commitment limit is the overall maximum loan amount beyond which the bank will not advance funds regardless of the amount of collateral posted. This definition of “commitment” is applicable only to revolving asset-based lending, which is a specialized form of secured lending in which a borrower uses current assets (e.g., accounts receivable and inventory) as collateral for a loan. The loan is structured so that the amount of credit is limited by the value of the collateral.

### Item No.    Caption and Instructions

NOTE: Items 1.a.(1) and (2) are to be completed for the December report only.

**1.a.(1)**    **Unused commitments for Home Equity Conversion Mortgage (HECM) reverse mortgages outstanding that are held for investment (in domestic offices).** For those HECM reverse mortgages outstanding (in domestic offices) that have been included in Schedule RC-C, part I, Memorandum item 15.a.(1), that are structured in whole or in part like home equity lines of credit, report the unused commitments to provide additional funds after closing to borrowers under the terms of their reverse mortgage loan agreements. Exclude home equity lines accessible through credit cards. Banks that have either \$300 million or more in total assets or \$300 million or more in credit card lines (as reported in Schedule RC, item 12, and Schedule RC-L, item 1.b, respectively, as of June 30 of the previous calendar year) should also report a breakdown of their credit card lines between unused consumer credit card lines (item 1.b.(1)) and other unused credit card lines (item 1.b.(2)). In general, the FDIC will reimburse 80 percent of losses incurred by an acquiring institution on covered assets over a specified period of time up to a stated threshold amount, with the acquirer absorbing 20 percent of the losses on these assets.
