

MOTION COMIC PROJECT

We are seeking youth (15-24) to participate in focus groups regarding the development of an innovative new method of delivering HIV/AIDS and sexually transmitted diseases (STD) prevention messages using art, sound effects and animation. The focus groups will consist of questions about utilizing motion comics as a vehicle for prevention of HIV/AIDS and STD. Focus groups will take approximately 2 hours to conduct and will be made up of 10-12 participants.

We value your input and look forward to speaking with you about the possibility of participating in this focus group.

For more information about participation, please contact:
