CSBS Minimum Dataset Variables, Person-Level Variables Constructed Based on EHARS

SAS Variable Name	Label	Description	Values	Format
parid		Unique MMP Id		
Recent_city_fips		Variable constructed for CSBS showing the city-fips code associated with the person's most recently recorded residence		
rsx_city_fips		most recent address city FIPS	See Section 3.1	
rsx_city_name		most recent address city name		
rsx_country_cd		most recent ISO country code	See Section 3.2	$CTRY_CD
rsx_country_usd		most recent US dependency code	See Section 3.2	$CTRY_CD
rsx_county_fips		The FIPS code for the county of residence at the most recent residence	See Section 3.1	
rsx_county_name		The patient's county of residence at the most recent address		
rsx_state_cd		The patient's state of residence at the most recent address	See Section 3.5	$STATE
rsx_age_yrs				
rsx_source		Source of the recent address		
rsxc_city_fips		most recent	See Section 3.1	

		complete address city FIPS		
rsxc_city_name		most recent complete address city name		
rsxc_country_cd		most recent complete address ISO country code	See Section 3.2	$CTRY_CD
rsxc_country_usd		most recent complete address US dependency code	See Section 3.2	$CTRY_CD
rsxc_county_fips		The FIPS code for the county of residence at the most recent complete residence	See Section 3.1	
rsxc_county_name		The patient's county of residence at the most recent complete address		
rsxc_state_cd		The patient's state of residence at the most recent complete address	See Section 3.5	$STATE
rsxc_age_yrs				
rsxc_source		Source of the recent complete address		
mr_known_phone_age_yrs		Age in years of the most recent known phone number		
mr_known_phone_source		Source of the most recent known phone number		
mr_known_facility_age_yrs		Age in years of the		

		most recent known facility		
mr_known_facility_source		Source of the most recent known facility
