Introduction

Form Approved OMB No.: 0920-0669 Expiration Date: TBD

Welcome to the State Program Interim Reporting System (SPIRS). This system is for the exclusive use of CDC's Division of Nutrition, Physical Activity and Obesity (DNPAO) staff and state grantees.

SPIRS was designed to serve the following purposes:

-- Monitor the activities and progress of funded states in CDC's Nutrition, Physical Activity, and Obesity Program; and -- Assist CDC in providing funded states with appropriate technical assistance that will lead to program effectiveness and improvement.

This Report includes the following sections:

- 1) Staffing
- 2) Resources
- 3) Partners
- 4) Planning
- 5) Health Disparities
- 6) Legislation
- 7) Policy
- 8) Environmental Change
- 9) Implementation
- 10) Other Accomplishments and Summary
- 11) Stories from the Field

This Report includes a short section asking you to provide one "Story from the Field". This story fulfills the FOA requirement for your state to provide Success Stories.

This report will serve as the required final program report for each fiscal year. Only activities that occurred between July 1, 2008 and June 30, 2009 should to be entered on this report (unless otherwise specified).

As you work through the items in this System, you may come across items for which the answer may be "no," "in progress," or "not yet". If an item does not apply to your circumstances, please enter "NA" or "nothing to report" into the relevant text box. Because some legislative, policy and environmental change interventions take years to fully implement, you are encouraged to report progress made during the fiscal year covered by this report even if the project is not yet completed.

If you have any questions while filling out this form, please feel free to contact your Project Officer or the Evaluation Team (dnpaoeval@cdc.gov).

We appreciate your cooperation in this endeavor, and we welcome any feedback on the reporting content and format.

* 1. Please provide the following information for verification purposes:

Your Name:

State:

Public reporting burden of this collection of information is estimated to average 10 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-0669).

Staffing

Please complete the following for each staff member with FTE's dedicated to this effort. Reporting on one staff member at a time, complete the staff member's position, staff type (permanent/interim), the date he/she started working on the project, percent time dedicated to this effort, and the percent of that effort covered by cooperative agreement funds.

Be sure to capture all FTE's dedicated to this effort in the State Health Department (including contracts), even if you included them in a previous Report. Please report all staff who worked at least 6 months during this reporting cycle.

NOTE: you will be prompted to add additional FTE's following this screen if applicable (max of 20).

[Example: If a person is 50% on the project (item 5 above) and all of that money is coming from the cooperative agreement you would enter 100 in this field]

7. Do you have additional staff to report?

O No

() Yes

If Yes, how many? You will not be able to provide information about them.

Resources

Please report specific details about each source of funding outside DNPAO Cooperative Agreement funds that was used to support the implementation of the cooperative agreement.

Only report funds from the last 12 months. If a funding source is ongoing, list only the funds received during the current reporting cycle.

1. Please select all sources of funding outside this DNPAO Cooperative Agreement that have been leveraged in the most recent reporting period for the state nutrition and physical activity program or the accomplishment of the state plan.

No funding outside DNPAO	Foundation Grants
Other Federal Programs	Contributions from private businesses
State Programs	
Other (please specify)	

2. For FEDERAL PROGRAMS, please provide the name of each funder and the approximate amount.

Collaboration

These items deal with collaboration between your state program and other organizations, agencies and individuals.

You will also have the opportunity to highlight a specific accomplishment of your state program in more depth in the Stories from the Field section.

1. Please give at least one example of a successful collaboration with an internal partner (e.g. within state health department) during the past year in the development, use and/or implementation of the state plan.

į.

2. Please give at least one example of a successful collaboration with an EXTERNAL partner (e.g. partners other than state health department) in the development, use and/or implementation of the state plan.

3. Do you have one or more "champion" organizations external to the state health department that helped move the obesity prevention and control program forward?

◯ Yes

🔵 No

4. Please list the "champion" organization(s) and describe their actions taken on behalf of the state program.

Planning

Has a state plan for nutrition and physical activity been produced during the past twelve months? (Check all that apply)

Not Yet
Draft in progress

Draft undergoing CDC review

State plan in effect

Revising existing plan

If Yes, how many? You will not be able to provide additional information about them.

Implementation

For this section, please include any additional interventions NOT ALREADY REPORTED in the Legislation & Local Ordinances, Policy, and Environmental Change sections in which your NPAO program is primary sponsor.

We define an intervention operationally as "A prescribed series of activities with the main purpose of changing existing obesity-, nutrition-, or physical activity-related behaviors and/or practices."

An intervention should address one or more levels of the Social-Ecological Model (individual, interpersonal, organizational, community, society) and be designed to:

• Establish supportive environments, making healthier lifestyle options (i.e., healthy eating and physical activity) in communities more readily accessible, affordable, comfortable, and safe.

- Establish policies and standards to support healthy eating and physical activity in communities.
- Change rules, regulations or structures of institutions and organizations.

• Establish programs in communities to increase physical activity and/or reduce caloric intake through healthy eating habits.

• Teach skills needed to make individual behavior changes related to nutrition, physical activity, and healthy weight, and designed to provide opportunities to practice these skills.

The following projects or activities are not considered interventions:

- Curriculum that has been purchased or designed and not put into use
- Curriculum that has been purchased or designed and not tailored to the target audience
- Training alone (can be an important part of an intervention)
- Conference participation and health fairs
- Presentations at conferences and forums
- Coalition or task force meetings

For multi-site interventions (e.g. community mini-grants programs), include the overall program ONCE. In the description fields, indicate the grantees/sites included in the program. Do not enter each mini-grant site as its own intervention.

NOTE: you will be prompted to add additional interventions following this screen if applicable (max of 10).

1. Name of the Intervention

2. Please specify the dates of the intervention's activities (MM/DD/YYYY)

Start Date	
End Date	

3. Was this intervention designed to address health disparities?

No

) Yes

If Yes, briefly describe the disparity and/or disparate population:

4. Is this a multi-site intervention (e.g. community mini-grant programs)?
No
Yes
If YES, how many sites does the program have?
If this intervention is multi-site, enter it only ONCE. In the description fields, you may enter information about the grantees/sites included in the intervention.

Site Count	
Individuals Reached	
If Estimated, Justify Estimates	

The following items pertain to any evaluation activities you have conducted related to this intervention.

25. Has your state started to measure process or implementation indicators for this intervention?

26. Please describe the process or implementation indicator(s) (e.g. number of people attending a particular training; number of hits to website). You may use bullets and/or a list.

27. Please describe any results you have from these process or implementation indicator(s):

28. Has your state started to measure short-term, intermediate or longterm outcomes from the intervention?

◯ Yes

29. Please describe the outcome indicator(s) (e.g. decreased TV viewing among high school students). You may use bullets and/or a list.

31. Please describe any progress on the intervention that has not already been reported:

32. Do you have another intervention to report?

Yes

Intervention #9

NOTE: you will be prompted to add additional interventions following this screen if applicable (max of 10).

1. Name of the Intervention

2. Please specify the dates of the intervention's activities (MM/DD/YYYY)

Start Date

End Date

3. Was this intervention designed to address health disparities?

\bigcirc	No
\bigcirc	Yes

If Yes, briefly describe the disparity and/or disparate population:

4. Is this a multi-site intervention (e.g. community mini-grant programs)?

\bigcirc	No
-	

() Yes

If YES, how many sites does the program have?

If this intervention is multi-site, enter it only ONCE. In the description fields, you may enter information about the grantees/sites included in the intervention.

5. Please indicate the developmental stage of your intervention

The following items pertain to any evaluation activities you have conducted related to this intervention.

25. Has your state started to measure process or implementation indicators for this intervention?

26. Please describe the process or implementation indicator(s) (e.g. number of people attending a particular training; number of hits to website). You may use bullets and/or a list.

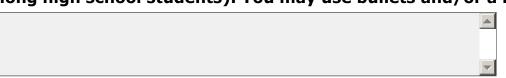

27. Please describe any results you have from these process or implementation indicator(s):

28. Has your state started to measure short-term, intermediate or longterm outcomes from the intervention?

◯ Yes

29. Please describe the outcome indicator(s) (e.g. decreased TV viewing among high school students). You may use bullets and/or a list.

30. Please describe any results you have from these outcome indicator(s):

31. Please describe any progress on the intervention that has not already been reported:

32. Do you have another intervention to report?

() Yes

If Yes, how many? You will not be able to provide additional information about them.

Other Accomplishments and Summary

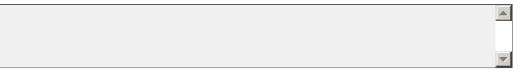

1. Please describe any resource material and/or training that you (the state DOH) developed that other states could potentially use as a part of their obesity prevention programs?

Only include tools that you have developed during the last 12 months. (in 250 words or less)

2. Please briefly describe your FIVE most significant accomplishments in the last 12 months. This may include products or accomplishments of the state program, partners, mini-grant recipients, etc.

You will also have the opportunity to highlight a specific accomplishment of your state program in more depth in the Stories from the Field section.

3. Please describe what you consider the most important success of your program to date.

Stories from the Field

The questions in this section enable you to tell the story of the efforts you've accomplished in planning, developing, and implementing your State program. For the purposes of this section, please choose ONE story that illustrates the innovative, unique, and/or exciting activities in which you are involved. The items below will guide you through the process of describing the story in detail. As you work through this section you may come across items which are not applicable to your circumstances. If so, please enter "NA" in the relevant text box.

Where indicated, please write 1-2 paragraphs addressing the relevant portion of the story. Use complete sentences and consistent tense throughout the responses where appropriate and provide as much depth as possible. We encourage you to use quotes to illustrate aspects of your story.

After submitting your responses, staff will compile the information into a narrative story so that it can be used for accountability, program improvement and technical assistance. Before the information is shared with others, you will be asked to provide feedback on the compiled content to ensure accuracy.

If you have questions while filling out this section, please contact the DNPAO Evaluation Team (dnpaoeval@cdc.gov). Thanks for taking the time to share your story with us!

1. Please provide the name and contact information for the primary contact related to this story. CDC staff may contact this person to obtain additional details or feedback.

Name	
Phone Number	
Email Address	

2. Please indicate a theme or focus for your story. The options below represent five of the awardee activities presented in the FOA and can be used as a guideline to focus your story. If your story does not fit the topics presented, feel free to use the "Other" field that is provided.

) Developing and maintaining program infrastructure

) Leading a planning process to develop a state plan

) Implementing the state plan in collaboration with partners

) Supporting and/or developing capacity for surveillance

) Evaluation progress of meeting objectives in the state plan, implementation plan, work plan, partnership plan.

) Other (please specify)

3. Please provide a TITLE for your story:

	a/obesity/state_programs/se_model.
· definitions of each level] heck all that apply)	
Interpersonal	
Organizational	
Community	
Society	
	wing principal target areas does this st
dress? (check all that apply)	—
Decreasing high energy dense foods	Increasing fruit and vegetable consumption
Decreasing sweetened beverage intake	Increasing physical activity
Increasing breastfeeding	Reducing TV viewing
Other (please specify)	

1. What need did your efforts address?

In 1-2 paragraphs, please describe the circumstances or problem(s) that initiated the action.

.

۵.

Be sure to include all parties involved and any costs or other resources associated with your efforts. Please provide sufficient detail in case others would like to replicate your actions.

Stories from the Field - Results

1. Please write 1- 2 paragraphs describing the results of your efforts (intended or unintended).

Where appropriate include information about

(a) new partnerships formed;

(b) new organizational processes (e.g. changes in culture/norms, organization behavior, policies initiated, policies considered, etc);

- (c) how your approach led to a more effective program;
- (d) the potential public health impact of your efforts

2. Quotes

If possible, please include a specific quote from program staff or partners that would support your story.

If we use the quote we will only identify the person by their title, and not their name. However, please include the full contact information for the person being quoted so we may contact them to gain their approval to use the quote.

A

Stories from the Field - Facilitators and Challenges

1. Facilitators to Planning, Implementation, and Development

Write 1-2 paragraphs describing three key elements that facilitated your efforts.

Examples of potential facilitating elements include:

(a) specific resources (including personnel or funding mechanisms) that facilitated your efforts;

*

A

(b) support from particular stakeholders;

(c) partnerships with new or existing partners.

2. Barriers to Planning, Implementation, and Development

Write 1-2 paragraphs describing the challenges or barriers you faced in your efforts.

3. Overcoming Barriers

Write 1-2 paragraphs describing how your organization was able to overcome the challenges/barriers you described above. If you were not able to, what could help your organization to overcome these challenges?

Stories from the Field - Lessons for Moving Forward

1. What tips do you have for using /adapting this approach in another organization/community?

Feel free to use bullets or a list format if you prefer.

2. What would your organization do differently to enhance your planning, implementation, or development processes related to this effort?

3. OPTIONAL: While we are only soliciting information about ONE story, if your program has additional successes that would make a good story, please let us know.

In the box below, please briefly (1-2 sentences) describe any additional stories your program would like to share and the contact information for a person who could elaborate on the story. DNPAO Evaluation Staff may contact that person to follow-up.
