Are you interested in becoming an ENERGY STAR Partner.

To become an ENERGY STAR Architect/Home Plan Designer, prepare by doing the following:

Read the commitments, terms and disclaimers - Review the [commitments made between ENERGY STAR and you](#) as part of this Partnership Agreement, as well as [general terms and disclaimers](#) for the Partnership.

Ensure that your organization has the contact information for a signatory or company representative - Provide the contact information for a signatory or company representative as required in the terms of this Agreement.

Ensure that you have all the necessary information to fill out the Agreement. You must provide the following information to complete your application:

Home Energy Rater - You must select a qualified Home Energy Rater that will ensure the homes that you design will meet the ENERGY STAR requirements.

Organization - includes name, physical address, web site, primary phone and FAX.

Contact Information - includes name, role in organization, mailing address, email and phone number.

If you agree to the commitments and has the required information, please Continue.
