Rating Descriptions (pop-up window):

Rating Info

Rank each category on a scale of 1–5 stars. A one star rating indicates a poor experience and a five star rating indicates an excellent experience.

Overall Ranking (1–5 stars): How was the overall experience of selecting a data set, learning about it via metadata and instructions, downloading the file, and using the data?

Data Utility (1–5 stars): Does the data set provide useful information? Do you find the data to be in a practical and convenient structure / format?

Usefulness of Meta Data and Instructions (1–5 stars): Did the metadata answer the questions you may have had about the data set? Were the instructions for using the data set clear?

Ease of Access (1–5 stars): This ranking assesses your experience from choosing the data set from the catalog to actually having a data file in hand. Were you satisfied with the speed at which you were able to access the data set? If you were redirected to another site to download a data set, was it easy to find the dataset and download it from that site?
