National Survey on Knowledge, Attitudes, and Behaviors
Related to HIV Vaccine Research

We need your assistance to improve our understanding of attitudes related to HIV vaccine research. **In appreciation for your assistance, a gift code worth \$25 at Amazon.com will be provided to you at the end of this survey.**

More than 1,000,000 Americans are thought to be infected with Human Immunodeficiency Virus (HIV), the virus that causes Acquired Immune Deficiency Syndrome (AIDS). The National Institute of Allergy and Infectious Disease (NIAID) at the National Institutes of Health (NIH) is working with researchers to develop a vaccine that prevents HIV infection. Survey data will guide efforts to educate the public about clinical trials, which are a necessary part of the development of an effective vaccine.

You have been selected for participation in this survey because of your affiliation with [ORG NAME], which serves communities that are highly impacted by HIV/AIDS.

Your personal information will be protected to the fullest extent permitted by law. Your answers will be stored separate from your identifying information in a secure environment. During analysis, survey answers will be combined across all respondents and reported in the aggregate. NIAID, the NIAID HIV Vaccine Research Education Initiative and your employer will **not** be informed of your personal responses to survey questions.

Your participation in this survey is voluntary. Though there are no penalties for not responding to the survey, if you do not respond, the survey finding may not represent your point of view and the final results may be inaccurate.

In about a year we will ask you to fill out a similar survey in order to assess your attitudes at that time.

If you have any questions about the survey, please contact Dan Eckstein:

Public reporting burden for this collection of information is estimated to average 20 minutes per response. This time includes the length of time allotted for the survey questions. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0585).
