Definitions

Word	Definition
Ability grouped	<p>Ability grouping is the pedagogical practice of separating students into different classrooms within a grade, based on their estimated achievement or ability levels.</p> <p>Ability grouping includes students pulled out of regular mathematics or English/reading/ language arts classes for Title I purposes in these subject areas.</p> <p>In this survey, ability grouping does NOT include grouping by achievement level on the basis of required prerequisites for certain courses (for instance, Algebra I as a prerequisite for Algebra II) or programs or services for students with disabilities served under IDEA.</p>
Absent (for teachers) REVISED	<p>A teacher is absent if he or she is not in attendance on a day in the regular school year when the teacher would otherwise be expected to be teaching students in an assigned class. This includes both days taken for sick leave and days taken for personal leave. Personal leave includes voluntary absences for reasons other than sick leave. Absence includes administratively approved leave for activities such as professional development. Field trips or other off-campus activities with students are not defined as teacher absences.</p> <p>A teacher is absent if he or she is not in attendance on a day in the regular school year when the teacher would otherwise be expected to be teaching students in an assigned class. ACT	The ACT sponsored by ACT, Inc, (formerly the American College Testing Program). The ACT is a nationally recognized assessment used to indicate college preparedness.
Advanced mathematics	<p>Advanced mathematics includes the following: trigonometry, trigonometry/algebra, trigonometry/analytic geometry, trigonometry/math analysis, analytic geometry, math analysis, math analysis/analytic geometry, probability and statistics, and precalculus.</p> <p>Trigonometry courses prepare students for eventual work in calculus, and typically include the following topics: trigonometric and circular functions; their inverses and graphs; relations among the parts of a triangle; trigonometric identities and equations; solutions of right and oblique triangles; and complex numbers.</p> <p>Analytic geometry courses include the study of the nature and intersection of lines and planes in space.</p> <p>Math analysis courses include the study of polynomial, logarithmic, exponential, and rational functions and their graphs; vectors; set theory; Boolean algebra and symbolic logic; mathematical induction; matrix algebra; sequences and series; and limits and continuity.</p> <p>Probability and statistics courses introduce the study of likely events and the analysis, interpretation, and presentation of quantitative data.</p> <p>Precalculus courses combine the study of trigonometry, elementary functions, analytic geometry, and math analysis topics as preparation for calculus.</p>
Advanced Placement (AP)	Advanced Placement (AP) is a program sponsored by the College Board through which high school students can earn college credit and advanced college placement.
Advanced Placement - different courses	<p>Courses listed by the College Board as preparation for AP tests; the list is available at http://www.collegeboard.com/student/testing/ap/about.html.</p> <p><i>Different courses</i> does not refer to the number of classes offered. As examples, Biology and Chemistry are different; Calculus AB and Calculus BC are different; but multiple classes in Calculus AB are not different.</p>
Advanced Placement - self selection	See <i>Self selection</i> .
Advanced Placement - subjects	<p>AP mathematics courses include calculus (AB and BC) and statistics.</p> <p>AP science courses include biology, chemistry, physics, and environmental science.</p> <p>AP foreign language courses include any foreign language for which AP testing is offered.</p> <p>AP courses in "other subjects" include all AP courses other than mathematics, science, and foreign language. Algebra I	Algebra I is a course that includes the study of properties and operations of the real number system; evaluating rational algebraic expressions; solving and graphing first degree equations and inequalities; translating word problems into equations; operations with and factoring of polynomials; and solving simple quadratic equations.
Algebra II	Algebra II course topics typically include field properties and theorems; set theory; operations with rational and irrational expressions; factoring of rational expressions; in-depth study of linear equations and inequalities; quadratic equations; solving systems of linear and quadratic equations; graphing of constant, linear, and quadratic equations; properties of higher degree equations; and operations with rational and irrational exponents.
Alternative school	An alternative school is a public elementary or secondary school that addresses the needs of students that typically cannot be met in a regular school and provides nontraditional education which falls outside of the categories of regular education, special education, vocational education, gifted or talented or magnet school programs. This definition includes schools that are adjunct to a regular school, e.g., are located on the same campus as a regular school but have a separate principal or administrator.
AP	Advanced Placement
Athletics	See <i>Interscholastic athletics</i> .
Attendance school	The school that the student actually attends for more than half of his or her school day. The Department recognizes that districts and states may identify students with schools in various ways, such as their membership school, their attendance school, their funding school, their accountability (AYP) school, etc. For the purposes of CRDC, students must ALWAYS be counted in the school where they actually, physically attend for more than 50% of the school day. If a student attends two schools, each for exactly 50% of his or her school day, then count that student at the "regular" school, rather than at the school of a special program, such as a vocational program.
Beginning of year	Status at the beginning of the school year for that LEA, usually used for survey items that involve policy or course offerings.
Biology	Biology courses are designed to provide information regarding the fundamental concepts of life and life processes. These courses include (but are not restricted to) such topics as cell structure and function, general plant and animal physiology, genetics, and taxonomy.
Calculus	Calculus courses include the study of derivatives, differentiation, integration, the definite and indefinite integral, and applications of calculus. Typically, students have previously attained knowledge of precalculus topics (some combination of trigonometry, elementary functions, analytic geometry, and math analysis).
Certification	See Teacher meeting all state licensing/certification requirements.
Charter school or LEA	A school or LEA that provides free public elementary and/or secondary education to eligible students under a specific charter granted by a recognized public chartering agency.
Chemistry	Chemistry courses involve studying the composition, properties, and reactions of substances. These courses typically explore such concepts as the behaviors of solids, liquids, and gases; acid/base and oxidation/reduction reactions; and atomic structure. Chemical formulas and equations and nuclear reactions are also studied.
Civil Rights Law	Civil rights law refers to one of the following: <ul style="list-style-type: none"> • Title VI of the Civil Rights Act of 1964, • Title IX of the Education Amendments of 1972. • Section 504 of the Rehabilitation Act of 1973. See each of these.
Classroom teacher	A teacher that provides instruction, learning experiences, and care to students during a particular time period or in a given discipline. School principals and guidance counselors are not considered classroom teachers.
Corporal punishment	Corporal punishment is paddling, spanking, or other forms of physical punishment imposed on a student.
Counselor	See <i>School counselor</i> .
Desegregation order or plan	A desegregation plan either ordered by a court or entered into with the Office for Civil Rights under Title VI of the Civil Rights Act of 1964.
Duplicated Counts	Counts by race/ethnicity by sex are unduplicated counts, i.e. a student is counted only once in the race/ethnicity columns. Where tables also contain columns for Students with Disabilities (IDEA), Section 504 only, or LEP, those counts are duplicate counts, except that a student cannot be counted under both Students with Disabilities (IDEA) and under Section 504 Only.
English language learners (ELL)	See <i>Limited English proficient (LEP)</i> .
Enrollment	See <i>Overall enrollment</i> .

Expulsion under zero-tolerance policies	Removal of a student from the school setting for an extended length of time because of zero-tolerance policies. A zero tolerance policy is a policy that results in mandatory expulsion of any student who commits one or more specified offenses (for example, offenses involving guns, or other weapons, or violence, or similar factors, or combinations of these factors). A policy is considered "zero tolerance" even if there are some exceptions to the mandatory aspect of the expulsion, such as allowing the chief administering officer of an LEA to modify the expulsion on a case-by-case basis.								
Expulsion with educational services	An action taken by the local educational agency removing a child from his/her regular school for disciplinary purposes, with the continuation of educational services, for the remainder of the school year or longer in accordance with local educational agency policy. Expulsion with educational services also includes removals resulting from violations of the Gun Free Schools Act that are modified to less than 365 days.								
Expulsion without educational services	An action taken by the local educational agency removing a child from his/her regular school for disciplinary purposes, with the cessation of educational services, for the remainder of the school year or longer in accordance with local educational agency policy. Expulsion without services also includes removals resulting from violations of the Gun Free Schools Act that are modified to less than 365 days.

Race and ethnicity on the CRDC	<p>SY 2009-10 is a transition year for the methodology for reporting race and ethnicity disaggregations.</p> <ul style="list-style-type: none"> • For the SY 2009-10 CRDC, all LEA respondents are eligible to use the traditional five-category methodology. • For the SY 2009-10 CRDC, LEAs that meet all of the requirements of the Department's 2007 Final Guidance on Maintaining, Collecting, and Reporting Data on Racial and Ethnic Data may report data using the seven racial ethnic categories. See : <i>Race and ethnicity - new 7 categories</i> below and http://www.ed.gov/legislation/FedRegister/other/2007-4/101907c.html • For the SY 2009-10 CRDC, an LEA must use the same method for all survey items for all schools. See the following two entries for more information about these two methods.

<p>Race and ethnicity – traditional 5 categories</p>	<p>The Department’s longstanding guidance for disaggregating counts by race and ethnicity uses five race/ethnicity categories. For the SY 2009-10 CRDC, this option is available to all LEAs.</p> <p>The five categories are:</p> <ul style="list-style-type: none"> • American Indian or Alaskan Native. A person having origins in any of the original peoples of North America and who maintains cultural identification through tribal affiliation or community recognition. • Asian or Pacific Islander. A person having origins in any of the original peoples of the Far East, Southeast Asia, the Pacific Islands, or the Indian subcontinent. This includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa. • Hispanic. A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin regardless of race. • Black (Not of Hispanic Origin). A person having origins in any of the Black racial groups of Africa. • White (Not of Hispanic Origin). A person having origins in any of the original peoples of Europe, North Africa, or the Middle East. <p>Under the five-category disaggregation, every student must be identified as one and only one of the above five categories. There is no provision for multi-racial, or unknown. If the student or the student’s parent does not identify the student as one of the five categories, then the education unit must make visual identification. In the CRDC, the sum of the five categories must add to the total count for that survey item. See below for race and ethnicity categories under the new seven-category method.</p>
<p>Race and ethnicity – new 7 categories</p>	<p>In October 2007, the Department adopted new guidance for disaggregating counts by race and ethnicity. Education units must adopt the new methodology by SY 2010-11, and are encouraged to adopt the new methodology as early as possible following the publication of the October 2007 guidance. For the SY 2009-10 CRDC, this option is available to LEAs that meet all of the requirements of the Department’s 2007 Final Guidance on Maintaining, Collecting, and Reporting Racial and Ethnic Data to the U.S. Department of Education.</p> <p>The following is a simplified overview of the new method, but is not the official regulation. For full official information, see the October 2007 guidance at: http://www.ed.gov/legislation/FedRegister/other/2007-4/101907c.html</p> <p>The new method has a procedure for collecting racial and ethnic data and a procedure for reporting racial and ethnic data.</p> <p>To collect the data, the agency must ask a two part question:</p> <p>(1) Are you Hispanic/Latino (yes/no) (2) Select one or more races from the following five racial groups:</p> <ul style="list-style-type: none"> (a) American Indian or Alaska Native (b) Asian (c) Black or African American (d) Native Hawaiian or Other Pacific Islander (e) White <p>Once the data are collected, the education unit tabulates as follows.</p> <p>There are 7 reporting categories.</p> <ul style="list-style-type: none"> 1) Hispanic/Latino of any race <p>And for individuals who are non-Hispanic/Latino:</p> <ul style="list-style-type: none"> 2) American Indian or Alaska Native 3) Asian 4) Black or African American 5) Native Hawaiian or Other Pacific Islander 6) White 7) Two or more races <p>--If a student answered the first question “Yes” then that student is tabulated as Hispanic, even if the student checked one or more categories in response to the second question`.</p> <p>--If a student answered the first question “No” and checked a single category for the second question, then that student is tabulated as the checked category from the second question.</p> <p>--If a student answered the first question “No” and checked more than one category for the second question, then that student is tabulated as “Two or more races.”</p> <p>Note that the new method does not employ a practice of allowing the student to check a box labeled “two or more races.” Collections that employ such a method do not meet the Department’s October 2007 Guidance.</p> <p>See above for race/ethnicity categories under the traditional five-category method.</p>
<p>Referral to law enforcement</p>	<p>Referral to law enforcement is an action by which a student is reported to any law enforcement agency or official, including a school police unit, for an incident that occurs on school grounds, during school-related events, or while taking school transportation, regardless of whether official action is taken.</p>
