

Request for Approval under the “Generic Clearance for the Collection of Routine Customer Feedback” (OMB Control Number: 1901-0302)

TITLE OF INFORMATION COLLECTION:

Annual web customer satisfaction survey for EIA (DOE-887(88))

PURPOSE:

The purpose of this web survey is to collect customer satisfaction and feedback on the EIA website. The results of this and previous surveys were valuable in leading EIA to change and improve its navigation, web content and presentation, and electronic delivery of energy information. EIA is proposing basically the same web-based survey we conducted for the past three years, which provided significant useful feedback.

DESCRIPTION OF RESPONDENTS:

Respondents will be users and potential users of EIA on the web. The web survey will target any person who visits the main EIA site during the time the survey is live. Customers to the EIA include policy-makers, business and financial markets, the energy industry and other businesses, the media, teachers and students, and private citizens.

Based on past responses to EIA web customer surveys, responses will be from individuals, the private sector, and Federal, state, and local governments, although the exact shares of response from each group are not predictable in advance. The survey will be posted on the EIA website after completion of the TWIP survey (pending approval), and remain active until the target 5000 responses have been acquired.
