# Data Standards Information Collection Request Checklist

**Name:** Nathanael Martin
**Office:** OPPTS / OPP
**Telephone Number:** (703) 305-6475
**ICR Title:** Standards for Pesticide Containers and Containment
**EPA ICR Number:** 1632.03
**OMB Control Number**: 2070-0133

---

 **Y**  **N**  Does this ICR support the collection of information that is or will be uploaded and maintained in a database?

If no, then your review is complete.   If yes, please enter the name of the database or system that this ICR supports: Pesticide Product Information System (PPIS)

 **Y**  **N**  Did this system exist prior to March 1998?
If no, when did your system begin operation? <u>PPIS was merged with the new OPPIN database system in 2003.</u>

| Does this ICR support the collection of data elements in the following areas? | Yes | No | Uncertain |
|---|---|---|---|
| **Date**   (The Date Data Standard provides for a standard representation of calendar date in data files for data interchange.) | | X | |
| **SIC/NAICS**   (Data elements that classify business activities including industry classifications, product classifications, and product codes.) | | X | |
| **Facility Site Identification**   (Data elements that identify the location, affiliated organization, industrial business activity, and environmental interests of a facility site, e.g., street address.) | | X | |
| **Latitude/Longitude**   (Data elements used for recording horizontal and vertical coordinates and associated metadata that define a point on Earth.) | | X | |
| **Biological Taxonomy**   (Data elements that represent biological organisms in the collection, analysis and exchange of environmental data) | | X | |
| **Enforcement & Compliance**   (Commonly-used data elements for enforcement and compliance related information subject to U.S. EPA/State/Tribal exchange.) | | X | |
| **Tribal Identifiers**   (This standard provides data elements for the use of common names and codes to identify federally recognized Tribal entities.) | | X | |
| **Contact Information**   (The standard includes information regarding the source of contact. The standard provides data groupings that are used to describe a point of contact, address, and communication information.) | | X | |
| **Permitting Information**   (The standard provides a comprehensive set of data elements for identification and tracking data that pertains to portions of most programs that have a permitting process or that are interested in permit related information.) | | X | |
| **Chemical Identification**   (Data elements that represent chemical substances regulated or monitored by EPA.) | | X | |
