19. Certification for Paperwork Reduction Act Submissions

On behalf of this Federal Agency, I certify that the collection of information encompassed by this request complies with 5 CFR 1320.9.

Note: The text of 5 CFR 1320.9, and the related provisions of 5 CFR 1320/8(b)(3). Appear at the end of the instructions. The certification is to be made with reference to those regulatory provisions as set forth in the instructions.

The following is a summary of the topics, regarding the proposed collections of information, that the certification covers:

- (a) It is necessary for the proper performance of agency functions;
- (b) It avoids unnecessary duplication;
- (c) It reduces burden on small entities;
- (d) It uses plain, coherent, and unambiguous terminology that is understandable to respondents;
- (e) Its implementation will be consistent and compatible with current reporting and recordkeeping practices;
- (f) It indicates the retention periods for recordkeeping requirements;
- (g) It informs respondents of the information called for under 5 CFR 1320.8(b)(3):
 - (h) Why the information is being collected;
 - (i) Use of the information;
 - (j) burden estimate;
 - (k) Nature of response (voluntary, required for a benefit, or mandatory);
 - (l) Nature and extent of confidentiality; and
 - (m) Need to display currently valid OMB control number;
- (n) It was developed by an office that has planned and allocated resources for the efficient and effective management and use of the information to collected (see note in item 19 of the instructions);
- (o) It uses effective and efficient statistical survey methodology; and
- (p) It makes appropriate use of information technology.

If you are unable to certify compliance with any of these provisions, identify the item below and explain the reason in item 18 of the Supporting Statement.

Supporting Statement for Paperwork Reduction Act Submissions

A. Justification

1. **Explain the circumstances that make the collection of information necessary. Identify any legal or administrative requirements that necessitate the collection. Attach a copy of the appropriate section of each statute and regulation mandating or authorizing the collection of information.**

Executive Order 12432 dated July 14, 1983, requires Federal Agencies to promote Minority Business Enterprise (MBE) participation in their programs. Each agency is to develop a Minority Business Development Plan, which establishes annual minority business development objectives. The Department of Commerce requires, pursuant to Executive Order 12432, annual reports from each Federal Agency on MBE achievements. Further, the Secretary of Housing and Urban Development has directed that each Assistant Secretary, each Hub Office manager will be responsible for accomplishing the objectives of Minority Business Enterprise (MBE) efforts for all programs under his/her jurisdiction.

Executive Order 11626 prescribes additional arrangements for developing and coordinating a National Program for MBE.

2. **Indicate how, by whom and for what purpose the information is to be used. Except for a new collection, indicate the actual use the agency has made of the information received from the current collection.**

This report will be prepared by the borrowers, sponsors, or project managers for the purpose of providing data on expended dollars and to provide verifiable MBE data which are complete, accurate and timely. Information is provided on a HUD-2516 on an annual basis. The information summarized from this report will enable HUD to monitor and evaluate MBE activities against the total program activity and the designated MBE goals.

3. **Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses, and the basis for the decision for adopting this means of collection. Also describe any consideration of using information technology to reduce burden.**

HUD will provide respondents an electronic document (HUD-2516) to be submitted via email.

4. **Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item 2 above.**

No similar information is available in existing data collections by the Department.

5. **If the collection of information impacts small businesses or other small entities (Item 5 of OMB Form 83-I) describe any methods used to minimize burden.**

This collection does not impact small businesses.

6. **Describe the consequence to Federal program or policy activities if the collection is not conducted or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.**

The consequences of not collecting this information means that HUD could not establish meaningful MBE goals nor evaluate MBE performance against these goals. Statutory mandates and federal program requirements would not be met if the collection was not conducted, or was conducted less frequently.

7. **Explain any special circumstances that would cause an information collection to be conducted in a manner:**
 - requiring respondents to report information to the agency more than quarterly;
 - requiring respondents to prepare a written response to a collection of information in fewer than 30 days after receipt of it;
 - requiring respondents to submit more than an original and two copies of any document;
 - requiring respondents to retain records other than health, medical, government contract, grant-in-aid, or tax records for more than three years;
 - in connection with a statistical survey, that is not designed to produce valid and reliable results than can be generalized to the universe of study;
 - requiring the use of a statistical data classification that has not been reviewed and approved by OMB;
 - that includes a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or which unnecessarily impedes sharing of data with other agencies for compatible confidential use; or
 - requiring respondents to submit proprietary trade secret, or other confidential information unless the agency can demonstrate that it has instituted procedures to protect the information's confidentiality to the extent permitted by law.

There are no special circumstances.

8. If applicable, provide a copy and identify the date and page number of publication in the Federal Register of the agency's notice, required by 5 CFR 1320.8(d), soliciting comments on the information collection prior to submission to OMB. Summarize public comments received in response to that notice and describe actions taken by the agency in response to these comments. Specifically address comments received on cost and hour burden.
- Describe efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping disclosure, or reporting format (if any) and the data elements to be recorded, disclosed, or reported.
 - Consultation with representatives of those from whom information is to be obtained or those who must compile records should occur at least once every 3 years -- even if the collection of information activity is the same as in prior periods. There may be circumstances that preclude consultation in a specific situation. These circumstances should be explained.

In accordance with 5 CFR 1320.8(d), this collection of information was announced in the *Federal Register* July 29 2009 on pages 37725. No comments were received.

9. Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees.

No payments of gifts are provided to respondents.

10. Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation or agency policy.

Figures for an MBE activity will be shown as Regional and national totals, and percentages and such data would be available under the Freedom of Information Act. No summary figures would be identified with individual projects, contractors, subcontractors, or sponsors.

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private. This justification should include the reasons why the agency considers the questions necessary, the specific uses to be made of the information, the explanation to be given to persons from whom the information is requested, and any steps to be taken to obtain their consent.

No information of a sensitive nature commonly considered *private* is requested.

12. Provide estimates of the hour burden of the collection of information. The statement should:

- indicate the number of respondents, frequency of response, annual hour burden, and an explanation of how the burden was estimated. Unless directed to do so, agencies should not conduct special surveys to obtain information on which to base hour burden estimates. Consultation with a sample (fewer than 10) of potential respondents is desirable. If the hour burden on respondents is expected to vary widely because of differences in activity, size, or complexity, show the range of estimated hour burden, and explain the reasons for the variance. Generally estimates should not include burden hours for customary and usual business practices;
- if this request covers more than one form, provide separate hour burden estimates for each form and aggregate the hour burdens in Item 13 of OMB Form 83-I; and
- provide estimates of annualized cost to respondents for the hour burdens for collections of information, identifying and using appropriate wage rate categories. The cost of contracting out or paying outside parties for information collection activities should not be included here. Instead this cost should be included in Item 14.

Form No.	Number of Respondents	Frequency of Responses	Hours Per Response	Burden Hours	Hourly Rate	Total Cost
HUD-2516	6,491	1	.50	3,245	\$25.00	\$81,125

13. Provide an estimate of the total annual cost burden to respondents or recordkeepers resulting from the collection of information (do not include the cost of any hour burden shown in Items 12 and 14).

- The cost estimate should be split into two components: (a) a total capital and start-up cost component (annualized over its expected useful life); and (b) a total operation and maintenance purchase of services component. The estimates should take into account costs associated with generating, maintaining, and disclosing or providing the information. Include descriptions of methods used to estimate major cost factors including system and technology acquisition, expected useful life of capital equipment, the discount rate(s) and the time period over which costs will be incurred. Capital and start-up costs include, among other items, preparations for collecting information such as purchasing computers and software; monitoring, sampling, drilling and testing equipment; and record storage facilities;
- If cost estimates are expected to vary widely, agencies should present ranges of cost burdens and explain the reasons for the variance. The cost of purchasing or contracting out information collection services should be a part of this cost burden estimate. In developing cost burden estimates, agencies may consult with a sample of respondents (fewer than 10) utilize the 60-day pre-OMB submission public comment process and use existing economic or regulatory impact analysis associated with the rulemaking containing the information collection, as appropriate.

- generally, estimates should not include purchases of equipment or services, or portions thereof made: (1) prior to October 1, 1995, (2) to achieve regulatory compliance with requirements not associated with the information collection, (3) for reasons other than to provide information or keep records for the government, or (4) as part of customary and usual business or private practices.

There are no respondent costs beyond those hourly costs reported in item 12, above.

14. **Provide estimates of annualized cost to the Federal government. Also, provide a description of the method used to estimate cost, which should include quantification of hours, operational expenses (such as equipment, overhead, printing, and support staff), and any other expense that would not have been incurred without this collection of information. Agencies also may aggregate cost estimates from Items 12, 13, and 14 in a single table.**

The estimated Federal costs to gather, record and summarize data on MBE activity are as follows:

Operational expenses based on an annual reporting burden of 3,245 hours and an hourly cost of \$30.00 = \$97,350

15. **Explain the reasons for any program changes or adjustments reported in Items 13 and 14 of the OMB Form 83-I.**

This is an extension of a currently approved package. There is a slight increase in the number of respondents but the adjustment reported on the 83-I reports the correct amount of time to complete the form. The previous submission stated 1 hour per response whereas it has been determined it takes .50 hours per response.

16. **For collection of information whose results will be published, outline plans for tabulation and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.**

This information will not be published by HUD. It is reported annually to the Department of Commerce.

17. **If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.**

The OMB number and expiration date will be displayed on the form.

18. **Explain each exception to the certification statement identified in item 19.**

There are no exceptions to the certification statement identified in item 19.

B. Collections of Information Employing Statistical Methods

No statistical methods are employed in the collection of this information.
