1We are setting estimates of production, use, and average prices received by growers for the 2009 cherry crop. To help us compile this, please complete the table below. Include returns made by your company for Oregon grown cherries shipped for fresh consumption. If final prices have not yet been computed, your best estimates are needed. Response to this survey is voluntary and not required by law, but your assistance is needed to ensure accurate estimates. Your report will be kept confidential and used only in combination with other reports. The results will be published in our national Fruit and Nut Annual Summary in January 2010. Thank you for your help.

*Please make corrections to name, address and Zip Code, if necessary.*

1

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB number is 0535-0039. The time required to complete this information collection is estimated to average 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.
