ROSTER

Now I will ask some questions about the place where you are currently living or staying. We'll start by making a list of people. We want to include people who live there all the time and people who stay there often, even if you don't think of them as members of the household.

ROSTER1

First, please tell me the names of everyone who lives there now.

Let's start with you. What is your name?

{Gather first name, middle initial, last name and suffix}

(NAME_F {allow 15} MI {allow 1} NAME_L {allow 20} NAME_S {allow 3})

{assign WHICH_RQ=ROSTER1, for names brought in on this question, WHICH_RQ tells us what roster question the name was brought in on}

{flowcheck IF DK or RF to NAME_F ask DESC; else ask ROSTER1a}

DESC

For Respondent: **I need a way to refer to you during the interview. I can use words like wife, father, oldest daughter, etc. How can I refer to you?**

For others: **I'll be referring to this person in the interview. I can use words like wife, daughter, oldest son, etc. How can I refer to this person?**

{FULLNAME=DESC}

{flowcheck ask next appropriate question depending on where you left off, either ROSTER1a, ROSTER2b, ROSTER3b}

ROSTER1a

Anyone else?

(Yes,

No)

{flowcheck If Yes, ask ROSTER1b, else ask ROSTER2}

ROSTER1b

What is that person's name?

{Gather first name, middle initial, last name and suffix}

{If all people are COMPLETE=1, then the case is Complete, set OUTCOME=01, MARK=21. If at least 1 person's COMPLETE=1, then case is Sufficient Partial, set OUTCOME=03, MARK=14 and MARKTWO=1. Else, case is incomplete.}

{This section is to be completed by the interviewer after the respondent has hung up}

DEBRIEFING Section – {Each person who has COMPLETE=1 goes through this section.}

{Show table with Rostered Name, EDITAGE, addresses identified as associated with person and dates or cycle associated with those addresses. Also show any notes written for each person. This will display for one person at a time. It could look something like this:}

Interviewer instruction – DO NOT use F10 on these screens. They must be completed.

In the Dates Panel (A):

Name	Age	Addresses	Dates (or) Cycle	Notes
Mary Smith	35	101 Main street Anytown, GA	FROM 1/1/2010 TO 4/15/2010	For each address, give NOTES associated with that address, if any. We allow 200 characters for NOTES to be associated with each address. I am writing two hundred characters here. This doesn't seem like it would take up too much screen space.
		266 April Ave. Cityville, NJ	FROM 4/16/2010 TO 9/26/2010	
		We could list 5 addresses per person here. Please provide your assessment.	For each address, give the DATES associated with address, if any. If not, leave blank	

In the Cycle Panel (B) (Won't be used):

Name	Age	Addresses	Dates (or) Cycle	Notes
Chad Smith	33	101 Main street Anytown, GA	For this one, fill the response to CYCLE1	Here you would fill one of two things: If CYCLE2 is in the path, fill those notes (300 characters). Else, fill notes from DOCYCLESMATCH
		266 April Ave. Cityville, NJ	Cycles <Each day, each week, each month, a few times a year, once a year, depends, varies or none of these, or Don't go back and forth"	

In either panel, if only one address is given, there will be nothing in the 4th or 5th column.

Name	Age	Addresses	Dates (or) Cycle	Notes
Thomas Smith	2	101 Main street Anytown, GA
