

HURRICANE AND TSUNAMI QUESTIONNAIRE FOR THE GENERAL PUBLIC

(Mail Questionnaire)

OMB 0710-0001

Expires: 30 September 2012

The public report burden for this information collection is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this data collection, including suggestions for reducing this burden, to Department of Defense, Washington Headquarters Services, Executive Services Directorate, Information Management Division, and the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503, Attn.: Desk Officer for U.S. Army Corps of Engineers. Respondents should be aware that notwithstanding any other provision of law, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Please **DO NOT RETURN** your completed form to either of these offices.

HURRICANE AND TSUNAMI QUESTIONNAIRE FOR THE GENERAL PUBLIC

Thank you for taking the time to complete this survey. Your responses will provide State and County Civil Defense with very valuable information. It may appear long, but it moves very quickly. It shouldn't take more than 15 minutes to complete. There are no wrong answers and only the analysts see will them. Your responses will be aggregated with many other responses from residents around the island.

If you do not read or understand English well enough to complete the survey, please call _____ in _____ and someone will be available to help you complete the survey in your preferred language.

HURRICANE AWARENESS

Civil Defense classifies hurricanes in five categories based primarily on the speed of the winds that make up the hurricane. These are listed below:

Category 1	74-95 mph winds
Category 2	96-110 mph winds
Category 3	111-130 mph winds
Category 4	131-155 mph winds
Category 5	155 mph winds and above

As examples, Hurricane ___ was a Category 2 hurricane, Hurricane _____ that struck in _____ was a Category 4 hurricane and Hurricane Katrina that struck New Orleans in 2005 was, at its worst, a Category 5 hurricane.
