# GLUTEN-FREE LABELING OF FOOD PRODUCTS EXPERIMENTAL STUDY Draft Online Questionnaire for Online Panel 10-14-09

# Introduction

Thank you for participating in this important study. Your responses are valuable to us. Please be assured that all your responses will be kept completely confidential. You can skip any of the questions and quit at any time. The whole questionnaire will take about five minutes to complete.

Thank you very much for your time.

# [Instructions for non-Celiac/Gluten participants]

("Celiac Disease is an affliction of the large intestines. When people with Celiac Disease eat foods containing gluten, their bodies have a reaction that can lead to serious illness. Gluten is a naturally occurring element of wheat, rye, barley and other grains. People with Celiac Disease, and others who cannot tolerate gluten, try to avoid foods that contain gluten. For packaged, processed foods, information on the food label is the only way people with Celiac Disease can tell if the product contains gluten.")

1. About how many days per week do you include packaged, processed food products when you eat (or serve) food?

1,2,3,4,5,6,7 Don't know

# PUBLIC DISCLOSURE BURDEN STATEMENT

Public reporting burden for this collection of information is estimated to average ten (10) minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: "

Department of Health and Human Services Food and Drug Administration CFSAN/PRB Comments/HFS-24 5100 Paint Branch Parkway College Park, MD 20740-3835.

Gluten-Free related labels for the Alpine Krunch chocolate bar. Participants will be able to move ahead without choosing but will not be told that they do not need to choose.]

# INSTRUCTIONS

Next we will show you some food labels for a common food product. The brand and the labels are not real but are made up for the purpose of this study. Please use the food label to help you answer the questions.

18. Imagine you are shopping or preparing food for someone who has Celiac Disease. Choose one item and put it into the basket if you want to purchase it.

# **INSTRUCTIONS**

For the next set of questions, we will show you only one food label. Again, the brand and the label are not real but are made up for the purpose of this study. Please use the food label to help you answer the questions.

19. How likely is it that this product contains gluten?

Not at all likely-	<u> </u>			Highly likely
TVOL at all likely-		2		Inginy likely
1	2	3	4	5

20. How easy was it for you to make your choice?

21. How noticeable is the information about gluten on this food label?

22. How safe is this product for someone with Celiac Disease or a gluten-intolerance to eat?

Not at all safe				Very Safe
1	2	3	4	5

Please indicate your level of agreement with the following statement(s)

- 23. The purpose of the information about gluten on the food label is to *inform* consumers with Celiac Disease or gluten-intolerance.
- 24. The purpose of the information about gluten on the food label is to *protect* consumers with Celiac Disease or gluten-intolerance.
- 25. The purpose of the information about gluten on the food label is to *warn* consumers with Celiac Disease or gluten-intolerance.

26. How likely would you be to eat/serve this product (to someone with Celiac Disease)?

Not at all likely-------Highly likely
