General Comments and IRB Actions

We received your response (E-mails and teleconferences 5/18/09 and 5/19/09) to the 4/24/09 HSRB report 2 of the subject protocol. This protocol was reviewed using the expedited procedure in that it presents no more than minimal risk and involves criterion #5 (research involving materials that have been previously collected) and #7 (research on individual or group characteristics employing a survey) as provided for in 45CFR46.110. A waiver of documentation of informed consent is approved. The revised protocol and consent document (dated 5/19/09) are **approved** for one year and will serve as the documents of record for this study (renewal date 4/24/2010). However, if you make any substantive changes to the protocol, or if any adverse reactions occur in any study participants, please notify me immediately.

Also, please be advised that the proper assurances and agreements must be in place prior to engagement for your survey contractor.

Protocol Issues – None.

Consent Form Issues – None.

Addenda Issues (Scripts, questionnaires, brochures, etc.) – None.

End of report
