

## Evaluation Questionnaire

We would like to ask you a few questions about your experience using the iCLIC website and the computerized questionnaires. Please rate the following statements on a scale of 1 to 5 with 1 meaning that you strongly agree and 5 meaning that you strongly disagree.

	Strongly agree	Agree	Don't agree or disagree	Disagree	Strongly disagree
I thought the study website was easy to understand and navigate.	1 <input type="radio"/>	2 <input type="radio"/>	3 <input type="radio"/>	4 <input type="radio"/>	5 <input type="radio"/>
I liked receiving email messages that reminded me to complete a questionnaire.	1 <input type="radio"/>	2 <input type="radio"/>	3 <input type="radio"/>	4 <input type="radio"/>	5 <input type="radio"/>
I liked receiving phone messages that reminded me to complete a questionnaire.	1 <input type="radio"/>	2 <input type="radio"/>	3 <input type="radio"/>	4 <input type="radio"/>	5 <input type="radio"/>
I would be likely to answer these questionnaires again if I was invited to participate in a study that lasted longer than 3 months.	1 <input type="radio"/>	2 <input type="radio"/>	3 <input type="radio"/>	4 <input type="radio"/>	5 <input type="radio"/>
I preferred answering questionnaires using the computer compared to paper.	1 <input type="radio"/>	2 <input type="radio"/>	3 <input type="radio"/>	4 <input type="radio"/>	5 <input type="radio"/>
I found it easy to enroll in the study using the study website.	1 <input type="radio"/>	2 <input type="radio"/>	3 <input type="radio"/>	4 <input type="radio"/>	5 <input type="radio"/>
I found it easy to return to the study website and login after enrolling.	1 <input type="radio"/>	2 <input type="radio"/>	3 <input type="radio"/>	4 <input type="radio"/>	5 <input type="radio"/>
I think it is important to ask people questions about their diet, physical exercise, and lifestyle factors.	1 <input type="radio"/>	2 <input type="radio"/>	3 <input type="radio"/>	4 <input type="radio"/>	5 <input type="radio"/>

Please share with us any other comments you have about the 24-hour recall questionnaires pertaining to diet (ASA24) and physical activity (ACT-24). Were they easy to use? What, if anything, could have been different to make them easier to complete?

THANK YOU!
