About RAMPS

The Recovery Act Management and Performance System (RAMPS) provides support to HUD personnel in meeting data and reporting requirements for American Recovery and Reinvestment Act (ARRA). This system gives HUD the ability to provide to the ARRA website, recovery.gov information related to HUD projects that are funded by ARRA.

NEPA Reporting Instructions

Paperwork Reduction Act Statement. The information collection requirements contained in this document have been approved by the OMB under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520) and assigned OMB Control Number (2506-0187). In accordance with the Paperwork Reduction Act, HUD may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless the collection displays a currently valid OMB control number. The public reporting burden for the collection of information is estimated to average 2 hours per annum per respondent.

The American Recovery and Reinvestment Act (ARRA) was signed into law on February 17, 2009, with the goal of stimulating the economy by providing billions of dollars for federal agencies to allocate through grants and loans. According to ARRA Section 1609(c), organizations receiving grants must provide information about the environmental impact of their projects and how they comply with the requirements of the National Environmental Policy Act (NEPA) Environmental Review.

To make it easy for grant recipients, like you, to provide NEPA compliance information related to your projects, HUD built the Recovery Act Management and Performance System (RAMPS). RAMPS allows users to provide the required information quickly and easily by completing a series of online forms. As a recipient, you must include accurate data for all fields within the reporting form for each project receiving ARRA funds.

On the Award List Page, you can select an Award (Grant) by the Award ID (Grant ID) to proceed to the Environmental Review Project List Page for the Award. Under each Award, a recipient will add at least one environmental review project for reporting purposes although multiple projects can be added to each Award.

NOTE: An environmental review project is defined as the subject of a single specific Environmental Review.

Award List

Please begin the reporting process by selecting an Award. Please contact your Administrator if you do not have access to a specific Award in the Award List below.

Find an award by specific ID: [   ] **Search**

EXPIRATION DATE: 12/31/2009

Environmental Review Project List for Award ID A333333

Under each Award (Grant), a recipient will add at least one environmental review project for reporting purposes although multiple projects can be added to each Award.

NOTE: An environmental review project is defined as the subject of a single specific Environmental Review.

The Environmental Review Project List below contains Environmental Review Projects for the Award you selected. At least one environmental review project needs to be added to this Award for NEPA reporting purposes. Please start by adding a new Environmental Review Project using the "Add New Project" button or edit an existing Environmental Review Project by using the "Edit Project" button. To delete an existing environmental review project, please use the "Delete Project" button below. Deleting the Environmental Review Project will remove submitted Environmental Review Projects from HUD NEPA reporting.

Note: All ARRA funded activities must be included in an environmental review, even if the review results in a determination that the activity/project is exempt.

An environmental review project can be in two different states:
Submitted Project » a fully completed environmental review project form that *has* been submitted to HUD for NEPA reporting
Project in Progress » a partially completed environmental review project form that has yet to be completed and has *not* been submitted to HUD for NEPA reporting

- NEPA Review Level
- Environmental Reviews
- Environmental Review Status
- Section Review and Submission

This section is optional based on answers reported in the NEPA Review Level section. If required, selections can be made regarding the overall status of all of the reviews required by environmental review laws.

Are all reviews done

Are all the environmental review requirements for this environmental review project completed and compliance approved?   ⦿ Yes   ○ No

Exempt = The environmental review is exempt when a determination of exemption is made.

When an environmental review project is not exempt (That is, it requires an environmental assessment or requires a review that is categorically excluded from NEPA compliance but is subject to the related environmental laws.), then the review process is complete when the grantee is in the receipt of a HUD Form 7015.16 or an equivalent letter.

Completion date

Enter the date all environmental review requirements for this environmental review project were completed and compliance approved. Enter date in MM/DD/YYYY format. | 06/30/2009 |
