

**-BENCHMARK AND TRACKING SURVEY QUESTIONNAIRE FOR TEACHERS**

**NOTE FOR INTERNAL USE ONLY:** The purpose of the benchmark Web-based survey is to assess teachers' current levels of awareness and attitudes toward the USDA Commodities Program, its prospective new name, and the National School Lunch Program (NSLP). The actual name and messages tested will be determined **after** qualitative research has been completed. These will not be the message platforms tested through the qualitative focus groups and in-depth interviews. Rather, the messages tested in questions 17, 21, and 22 will be tailored to the specific perceptions and attitudes of this audience that FNS wants to measure over time.

Because the new program name may be USDA Foods, or something completely different, we will use the original program name - USDA Commodities - as part of the benchmark measure. This will allow us to quantify teachers' awareness of the old and new name and track the recognition of the new name over time.

**INTRODUCTION**

Thank you for taking the time to participate in this important study, sponsored by the U.S. Department of Agriculture (USDA), Food and Nutrition Service (FNS). Your input is extremely valuable.

Your responses are confidential and will never be linked to you. All responses will be used for summary analysis only.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0524. The time required to complete this information collection is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: U.S. Department of Agriculture, Food and Nutrition Service, Office of Research and Analysis, 3101 Park Center Drive, Room 1014, Alexandria, VA 22302 (0584-0524). EVERYONE: As you may be aware, USDA Commodities are distributed across the United States through six nutrition assistance programs administered by USDA's Food and Nutrition Service (FNS). The largest portion of these commodities or foods go to school districts that participate in the National School Lunch Program (NSLP), which helps schools provide nutritious lunches, free or at low cost, to over 31 million children each school day. USDA Commodities help increase the nutritional value of the National Lunch School Program and keep costs of school meals down. School districts and independent schools that choose to take part in the National School Lunch Program receive cash subsidies and donated commodities (USDA Commodities) from the USDA for each meal they serve. (PROGRAMMING NOTE: IF NECESSARY, THE DEFINITION MAY BE PROVIDED ON EACH SCREEN OF THE WEB SURVEY AS A REFERENCE FOR PARTICIPANTS.)
