

Public Notice Filing and Public Notice Response Screenshots 9/25/2009

Below is the homepage to the Broadband USA Mapping Tool.

Below is the screen that users see when they click on the “Public Notice” menu option.

Depending on what search criteria the user is interested in, they will receive a listing of those Public Notice Filings which fit their criteria. As an example, the state of Rhode Island was selected as the search criteria.

Microsoft Internet Explorer window titled "List Of Public Notice Filings (PNF)". The address bar shows the URL: <http://broadbandsearch.test.sc.egov.usda.gov/LegalNoticeFilingList.aspx?program=ARRA>.

List of Public Notice Filings (PNF)

Home | Map | Public Notice | Help | Login

Home > Public Notice > List of Public Notice Filings

This page enables users to view and/or respond to published Public Notice Filings (PNFs) for BIP and BTOP Infrastructure applications. Providing a response is strictly voluntary. Existing service providers are not required to provide a response to any Public Notice Filing, but must do so in order for their existing services to be considered when determining the eligibility of the proposed funded service areas identified in the associated BIP or BTOP Infrastructure application. Use the drop-down menus provided to search by state or by applicant.

To respond to a PNF, users should click on the "View" link next to the PNF they are interested in and click on the "File a Response" button at the bottom of the PNF. **Please note that existing broadband service providers responding to PNFs with multiple proposed funded service areas will need to file a separate response for each individual service area within that application in order for their existing services to be considered when determining the eligibility of the proposed funded service areas identified in the BIP and BTOP Infrastructure applications.** In addition, RUS and NTIA will not accept paper submissions of responses; any paper responses will be returned.

All information submitted by existing service providers will be treated as proprietary and confidential to the extent permitted under applicable law except for the name of the company submitting this response and the summary set forth in the Respondent's Summary Box.

* Service Areas for paper applications may not currently be captured in this system.

If you experience technical difficulties or if you have any questions about using this tool, please contact our Help Desk at 1-800-457-3642 then press 225, or email rd.hq@sc.egov.usda.gov.

OMB Control Number: 0660-0031
OMB Control Number: 0572-0142
Expiration Date: 01/31/2010

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act (PRA), unless that collection displays a currently valid Office of Management and Budget (OMB) control number.

Applicant: Towerstream I

* Denotes required fields.

* Respondent's Organization:

* Contact Person: Laurel Minich

* Phone:

* Email: laurelminich@gmail.com

* Confirm Email: laurelminich@gmail.com

Please provide a brief summary in the Respondent's Summary Box below of the information that you are providing in this public notice response as it relates to the classification of the applicant's service area being unserved or underserved for the areas that overlap with your service area. Your summary shall be publicly available and therefore you may want to omit any data that you deem confidential or proprietary. Please note that only the name of the company submitting this response and the summary below will be made public. All other information provided in this public notice response will be treated as proprietary and confidential to the extent permitted under applicable law.

* Respondent's Summary:

If you want to file a response to a Public Notice for multiple Service Areas, you must file a separate response for each individual Service Area.

* Service Area: Please select a Service Area [Help me Pick...](#)

Capability of Providing Broadband Transmission Speeds of at Least 3 Mbps Downstream in Proposed Funded Service Area

* Does the respondent advertise fixed or mobile broadband service with broadband transmission speeds of at least 3 Mbps downstream within the proposed funded Service Area for which this Public Notice Response is responding to?

☐ Yes ☐ No

If you do advertise broadband transmission speeds of at least 3 Mbps downstream within the proposed funded service area, please upload a copy of your advertisement.

You may upload 1 supporting document. Accepted file types include TIF, JPG, PNG, PDF, Word, and Excel. The maximum allowed file size is 4MB. If you upload consecutive documents, the previous document will be replaced.

Supporting Document: [View Supporting Document](#)

Existing Establishments Capable of Receiving Broadband Service within the Proposed Funded Service Area

The number of establishments capable of receiving broadband service within the proposed funded Service Area. The definition of broadband service can be found in the NOFA.

* Residential Households:

* Business Establishments:

Number of Existing Broadband Subscribers Within the Proposed Funded Service Area

The number of existing customers purchasing broadband service within the proposed funded Service Area. Please make sure to address all service tiers that are offered and the number of customers subscribing to each service tier.

Once a user clicks on the “Draw Map of Your Existing Service Area” link, the following screen is shown. This page enables users to draw a map of their existing service area.

The screenshot displays the 'Broadband USA' website's 'Service Area Map' interface. The header features the 'Broadband USA' logo with an American flag and a circular emblem. Below the header is a navigation bar with links: Home, Map, Public Notice, Applicants & Respondents, Help, and Logout. The main content area shows a breadcrumb trail: Public Notice Response List > View Public Notice Response > Service Area Map. A note indicates that users using Internet Explorer may need to add the website to their Trusted Sites. The central map shows a large orange-shaded service area in the Quad Cities region, with a red outline. A legend at the bottom left categorizes areas as 'Pending' or 'Approved' for various programs: BIP, BTOP, Joint, and Farm Bill. The map includes a scale bar (1" = 21,503 ft), coordinates (Lat: 42.5291, Lon: -87.8397), and a list of nearby locations. The footer contains a series of links to government websites, including the Department of Commerce, NTIA, and the White House.
