

**Cancer Therapy  
 Evaluation Program**

Collection of this information is authorized under 21 CFR 312.53. Collection of this information serves two purposes. The first is to identify qualified investigators and associates to participate in clinical investigations at the National Cancer Institute. This information may be disclosed to researchers for research purposes, sponsors of clinical trials, the applicable Institutional Review Board, National Cancer Institute, Food and Drug Administration's Center for Drug Evaluation and Research and Center for Biologics Evaluation and Research, and the Department of Health and Human Services. The second purpose is to ensure that investigational agents are under the control and accounted for by a competent authority. Submission of this information is voluntary, however, in order for us to

to qualify you to conduct a study in accordance with the relevant, current protocol(s), you must complete all fields.

**Public reporting burden** for this collection of information is estimated to average 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. **An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.** Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-xxxx). Do not return the completed form to this address.
