Participation Expectations

I understand and agree that the information I have provided will be used as described in the Privacy Act Statement attached for the principal purpose of identifying Subject Matter Experts (SME) to further the U. S. Government's mission as well as other FBI routine uses as published.

The Privacy Act Statement includes your approval to share your affiliation with InfraGard and your contact information to other InfraGard members. In addition, I permit the following groups to have access to all of the information I have provided:

- InfraGard Members to be treated as InfraGard Protected Information.
- The InfraGard National Members Alliance (INMA), for use in a database that is accessible by the general public and/or subject to restrictions established by the INMA.

PRIVACY ACT STATEMENT

Privacy Act Statement

Authority:

Collection of this information is authorized under: Title 28, Section 534 28 CFR. § 0.85.

Principal Purpose and Routine Uses

The information collected on this form will be considered as InfraGard Protected Information and used for the principal purpose of identifying Subject Matter Experts to further the mission of the FBI, the Department of Homeland Security and other Federal Governmental entities involved in the protection of the National Infrastructure. The FBI may provide direct access to your information to other U. S. Government entities, primarily to include law enforcement and Intelligence Community Members. Your affiliation with InfraGard and your contact information will be provided to other InfraGard members. The information you provide on this form (other than contact information) will only be shared with other InfraGard members if you have given your consent.

Social Security Account Number

Your Social Security Account Number (SSAN) is requested to check criminal, immigration, national security and other electronic databases. Because other people may have the same name and birth date, your SSAN will be used to facilitate accurate identification and to help eliminate the possibility of misidentification of individuals for whom a security risk assessment or database check is being conducted.
