SUPPORTING STATEMENT (Forms 5434 and 5434-A)

. <u>CIRCUMSTANCES NECESSITATING COLLECTION OF INFORMATION</u>

Regulations governing the Performance of Actuarial Services under the Employee Retirement Income Security Act of 1974 (ERISA) (20 CFR Part 901), provide that each enrollment is valid for a period of three years from the date of enrollment or the date of any renewal thereof. Enrollment status, upon application made by the enrolled actuary not more than six months before the date of the expiration of the original period of enrollment or any renewal thereof, may be automatically renewed for a period of three years from such date, by filing Form 5434-A. A condition of eligibility for renewal is the satisfaction of continuing professional education as required by 20 CFR 901.11(e).

. USE OF DATA

The information will be used by the Joint Board to determine whether the enrolled actuary qualifies for continued enrollment to perform actuarial services. Failure to collect such information will result in the Joint Board being unable to determine the eligibility of those individuals wishing to continue performing actuarial services.

. USE OF IMPROVED INFORMATION TECHNOLOGY TO REDUCE BURDEN

Forms 5434 and 5434-A cannot be filed electronically, since its relatively low volume does not justify the cost electronic enabling.

. EFFORTS TO IDENTIFY DUPLICATION

We have attempted to eliminate duplication within the agency wherever possible.

13. ESTIMATED TOTAL ANNUAL COST BURDEN TO RESPONDENTS

As suggested by OMB, our **Federal Register** notice dated August 7, 2009 (74 FR 39732), requested public comments on

estimates of cost burden that are not captured in the estimates of burden hours, i.e., estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. However, we did not receive any response from taxpayers on this subject. As a result, estimates of the cost burdens are not available at this time.

Note: The following paragraph applies to all of the collections of information in this submission:

Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.

OMB EXPTRATION DATE

We believe the public interest will be better served by not printing an expiration date on the form(s) in this package.

Printing the expiration date on the form will result in increased costs because of the need to replace inventories that become obsolete by passage of the expiration date each time OMB approval is renewed. Without printing the expiration date, supplies of the form could continue to be used.

The time period during which the current edition of the form(s) in this package will continue to be usable cannot be predicted. It could easily span several cycles of review and OMB clearance renewal. In addition, usage fluctuates unpredictably. This makes it necessary to maintain a substantial inventory of forms in the supply line at all times. This includes supplied owned by both the Government and the public. Reprinting of the form cannot be reliably scheduled to coincide with an OMB approval expiration date. This form may be privately printed by users at their own expense. Some businesses print complex and expensive marginally punched continuous versions, their expense, for use in their computers. The form may be printed by commercial printers and stocked for sale. In such cases, printing the expiration date on the form could result in extra costs to the users.

Not printing the expiration date on the form(s) will also avoid confusion among taxpayers who may have identical forms with different expiration dates in their possession.

For the above reasons we request authorization to omit printing the expiration date on the form(s) in this package.
