NOW, THEREFORE, in accordance with said Patent Licensing Regulations, and in consideration of the foregoing and of the terms hereinafter contained in this AGREEMENT, the LICENSOR and LICENSEE agree as set forth below:

2.2 LICENSOR, upon request, will use reasonable efforts to grant LICENSEE, in accordance with 37 CFR 404, a license to practice any inventions assigned to LICENSOR, without which license or licenses, the practice of the LICENSED INVENTION would result in infringement. The grant of said license or licenses shall be limited, however, to the extent necessary to practice the LICENSED INVENTION. There will be no such grant where said inventions are licensed exclusively.

2.3 Notwithstanding anything to the contrary in this AGREEMENT, LICENSEE shall take the license granted in this ARTICLE II subject to any outstanding licenses or other rights in THIRD PARTIES under agreements executed by LICENSOR prior to the LICENSE COMMENCEMENT DATE.

2.4 LICENSOR reserves an irrevocable, royalty-free right to practice and have practiced the LICENSED INVENTION, and any other inventions as provided in Section 2.2, throughout the world by or on behalf of the Government of the United States and on behalf of any foreign government pursuant to any existing or future treaty or agreement with the United States.

ARTICLE III

Sublicenses

3.1 Upon written approval by LICENSOR, LICENSEE may grant a written royalty-bearing, sublicense under the license granted in ARTICLE II provided that it submits to LICENSOR a written request, in advance, for permission to grant the sublicense, including with said request a copy of the proposed sublicense. The proposed sublicense shall refer to and be generally consistent with this AGREEMENT and shall include the rights reserved by LICENSOR under Section 2.4. The proposed sublicense shall include the condition that the sublicense shall automatically terminate upon the revocation or termination of this AGREEMENT.

3.2 LICENSEE shall furnish LICENSOR with a copy of the sublicense, consistent with the proposed sublicense approved by LICENSOR and executed by both LICENSEE and its SUBLICENSEE, within fifteen (15) days after the grant of the sublicense by LICENSEE.

3.3 LICENSEE shall submit to LICENSOR, for advance approval, any proposed modification of a sublicense. LICENSEE shall also submit to LICENSOR a copy of the sublicense modification (either as an addendum or a new sublicense), consistent with the proposed sublicense modification and executed by both LICENSEE and its SUBLICENSEE, within fifteen (15) days after the effective date of the sublicense modification.

3.4 The granting of a sublicense by LICENSEE shall not operate to relieve LICENSEE from any of its obligations under this AGREEMENT. 3.5 LICENSEE shall be responsible for and remit royalties based upon its SUBLICENSEE's activities as if said activities were its own.

ARTICLE IV

Term of License

4.1 The license granted in ARTICLE II will be in effect for a LICENSE TERM that is equal to the unexpired term of the last patent to be in effect of the patent(s) encompassed under the definition of LICENSED PATENT. Except as may be expressly provided otherwise herein or agreed to in writing by LICENSOR, the license shall expire automatically at the end of the LICENSE TERM without notice to LICENSEE.

ARTICLE V

Practical Application

5.1 LICENSEE shall achieve PRACTICAL APPLICATION of the LICENSED INVENTION within x months of the LICENSE COMMENCEMENT DATE and in accordance with the schedule set forth in the APPENDIX to this AGREEMENT and incorporated into this AGREEMENT. LICENSEE shall notify LICENSOR within 30 days of achieving PRACTIAL APPLICATION that PRACTICAL APPLICATION has been achieved. LICENSEE shall also provide evidence to verify the achievement.

5.2 LICENSEE, once PRACTICAL APPLICATION of the LICENSED INVENTION is achieved, shall thereafter maintain it throughout the LICENSE TERM.

ARTICLE VI

6.1 In achieving PRACTICAL APPLICATION of the LICENSED INVENTION, LICENSEE agrees that any products embodying the LICENSED INVENTION or produced through the use of the LICENSED INVENTION shall be reduced to practice and manufactured substantially in the United States, in accordance with 35 U.S.C. 209(b).

6.2 LICENSEE shall make a bona fide attempt to use or sell the LICENSED INVENTION in the United States.

6.3 LICENSEE shall promptly report to LICENSOR its discontinuance of making the benefits of the LICENSED INVENTION available to the public.

ARTICLE VII

Royalty and Payment

7.1 In consideration of the license granted in ARTICLE II, LICENSEE shall remit to LICENSOR a nonrefundable license fee in the amount of Dollars (\$) upon the execution of this AGREEMENT by LICENSEE.

7.2 LICENSEE agrees to pay LICENSOR a running royalty of percent (%) of the NET SALES of ROYALTY-BASE PRODUCTS. The running royalty shall be remitted to LICENSOR within 30 days of the end of every ACCOUNTING PERIOD, i.e., within 30 days after the first day of each January and July.

7.3 LICENSEE agrees to pay LICENSOR a minimum royalty of \$ X The minimum royalty shall be paid to LICENSOR starting y ACCOUNTING PERIODS after the LICENSE COMMENCEMENT DATE, and it shall be remitted within 30 days of the end of every ACCOUNTING PERIOD.

7.4 The minimum royalty specified in Section 7.3 shall not be due for any particular ACCOUNTING PERIOD if the running royalties specified in Section 7.2 are equal or greater than the minimum royalty.

7.5 LICENSEE agrees that in the event any ROYALTY-BASE PRODUCTS shall be sold, transferred, or disposed of, to a third-party for purposes of resale in a transaction that does not represent an arm's length transaction, then the royalties to be paid under this AGREEMENT for the ROYALTY-BASE PRODUCTS shall be based upon the NET SALES of the ROYALTY-BASE PRODUCTS by the third-party, rather than upon the NET SALES of the LICENSEE. Examples of transactions that do not reflect an arm's length transaction includes sales, transfers or disposals(1) to any type of organization or individual who owns a controlling interest in LICENSEE by stock ownership or otherwise, (2) to any

type of organization in which LICENSEE shall own, directly or indirectly, a controlling interest by stock ownership or otherwise, or (3) to any type of organization with which, or individual with whom, LICENSEE, its stockholders, or associated companies shall have any agreement, understanding, or arrangement (such as, among other things, an option to purchase stock, an arrangement involving a division of profits, or special rebates or allowances) without which agreement, understanding, or arrangement, prices paid by such organization or individual for the ROYALTY-BASE PRODUCTS would be higher than the NET SALES reported by LICENSEE, or if such agreement, understanding, or arrangement results in extending to such organization or individual lower prices for ROYALTY-BASE PRODUCTS than those charged to outside concerns buying similar merchandise in similar amounts and under similar conditions.

7.6 Under this AGREEMENT, ROYALTY-BASE PRODUCTS will be considered sold when invoiced, except that upon expiration of the LICENSED PATENT, or upon termination of the license, all shipments made on or prior to the day of such expiration or termination which have not been invoiced prior thereto shall be royalty-bearing.

7.7 Royalties shall be paid within thirty (30) days of the end of each ACCOUNTING PERIOD. Royalties shall be paid by check, denominated in United States dollars, and made payable to the National Aeronautics and Space Administration. The check shall be mailed to LICENSOR at the address set forth in ARTICLE XV of this AGREEMENT concurrently with the report required in ARTICLE VIII of this AGREEMENT. LICENSOR's acceptance of any royalty payment does not eliminate LICENSOR's right to contest the accuracy of such payment in the future.

7.8 LICENSOR shall assess interest, penalties, and administrative costs in accordance with the Federal Claims Collections Standards, 4 CFR §§ 100-105, on all payments due LICENSOR which are not timely paid by LICENSEE.

ARTICLE VIII

8.1 LICENSEE shall submit to LICENSOR written reports within thirty (30) days of the end of every ACCOUNTING PERIOD whether or not royalties are due. (h) LICENSEE's GROSS SALES.

(i) GROSS SALES for each SUBLICENSEE (if any).

(j) GROSS SALES for each reseller of ROYALTY-BASE PRODUCTS under Section 7.5.

(k) LICENSEE's NET SALES.

(l) NET SALES for each SUBLICENSEE (if any).

(m) NET SALES for each reseller of ROYALTY BASED PRODUCTS under Section 7.5.

8.3 Each report shall be accompanied by a certification by an officer of LICENSEE that the LICENSEE is complying with the terms and conditions of this AGREEMENT and that the responses to each part of Section 8.2 are accurate and complete.

8.4 LICENSEE shall, on an annual basis, submit to LICENSOR an audited balance sheet and an audited income statement. Internal audits are permissible, but LICENSOR reserves the right to require an independent audit and additionally reserves the right to approve of the auditor.

8.5 A final report shall be submitted to LICENSOR by LICENSEE within thirty (30) days after the termination of this AGREEMENT.

ARTICLE IX

Audit Rights

9.1 LICENSEE shall keep full, true, and accurate records for the purpose of LICENSOR verifying LICENSEE's reports to LICENSOR under ARTICLE VIII, verifying LICENSEE's royalty payments to LICENSOR under ARTICLE VII, and for determining LICENSEE's activities in general under the AGREEMENT. These records shall include, but are not limited to, ledgers and journals of account, customer orders, invoices, shipping documents, inventory records, computer records, purchase orders, and tax records. These records, as a whole, shall include information which will allow, at a minimum, identification of suppliers, customers, items sold or otherwise transferred, and/or services rendered, as well as whether the LICENSEE is operating within the scope of its license.

9.2 The records described in Section 9.1 shall be available for audit by LICENSOR, or by an authorized representative of LICENSOR, at all reasonable times for the LICENSE TERM and for three (3) calendar years thereafter. In addition, LICENSEE shall permit inspection by LICENSOR, or by an authorized representative of LICENSOR, of LICENSEE's assembly facilities and of LICENSEE's inventory of ROYALTY-BASE PRODUCTS, including parts, works-in-progress, and finished goods, during any audit by LICENSOR.

9.3 If LICENSOR, as a result of an audit, discovers an underpayment of royalties which exceeds \$2,500.00, then LICENSEE shall reimburse LICENSOR for the cost of the audit, including all related costs of performing the audit (e.g., travel, food, lodging, cost of professional services, etc.), in addition to any penalties assessed pursuant to Section 7.8.

Such marking shall be accomplished by fixing on the article or when, from the character of the article, this cannot be done, by fixing to it, or to the package wherein one or more of the articles is contained, a label including the notation "Licensed from the National Aeronautics and Space Administration under (insert license number)." Such marking shall also be included into all literature and/or advertising materials describing the LICENSED INVENTION.

ARTICLE XI

11.1 Except as required by Section 10.1, LICENSEE may use the name of LICENSOR, or the acronym "NASA," only in truthful statements concerning its relationship with LICENSOR. The letters 'NASA' may be used in such truthful statements only if they are: (a) used in their normal typed or printed form; (b) the same size, color, and intensity as the rest of the words in a sentence; (c) not used in their stylized version as they appear in the NASA logotype or NASA insignia;

11.3 LICENSEE agrees to make copies of its marketing literature available to LICENSOR so that LICENSOR can determine that such use is in accordance with the terms of this ARTICLE.

ARTICLE XII

Disclaimer of Warranties

12.1 LICENSOR MAKES NO REPRESENTATIONS OR WARRANTIES, EXPRESS, IMPLIED, OR STATUTORY, AS TO ANY MATTER WHATSOEVER.

12.2 In particular, nothing in this AGREEMENT shall be construed as:

(a) A warranty or representation by LICENSOR as to the validity or scope of any LICENSED PATENT; or

(b) A warranty or representation that anything made, used, sold, or otherwise disposed of under any license granted in this AGREEMENT is or will be free from infringement of any type, including patent infringement, copyright infringement, and trademark infringement; or

(c) A requirement that LICENSOR shall file any patent application, secure any patent, or maintain any patent in force, other than the LICENSED PATENT; or

(d) An obligation to bring or prosecute actions or suits against THIRD PARTIES for infringement; or

(e) An obligation to furnish any manufacturing or technical information; or, if any such information is supplied, a warranty or representation that such information is accurate; or

(f) Conferring a right to use in advertising, publicity or otherwise the name of any inventor of the LICENSED INVENTION or the NASA name, seal, insignia, logotype or any other adaptation without the prior written consent of LICENSOR (except as otherwise provided in ARTICLE XI); or

(g) Precluding the export from the United States of ROYALTY-BASE PRODUCTS on which royalties shall have been paid as provided in ARTICLE VII, provided that the item can be exported under the export control laws of the United States; or

(h) Granting by implication, estoppel, or otherwise, any licenses or other rights under any patent of LICENSOR or any other PERSON in the United States or any foreign country; or

(i) Granting by implication, estoppel, or otherwise, any licenses or rights under patents or patent applications of LICENSOR other than the LICENSED INVENTION, regardless of whether such other patents or patent applications are dominant, subordinate, or an improvement to the invention or inventions as claimed, of the LICENSED PATENT or LICENSED PATENT APPLICATION, nor to other applications that did not claim the invention.

(j) Conferring upon any PERSON (1) any immunity from or defenses under the antitrust laws, (2) any immunity from a charge of patent misuse, or (3) any immunity from the operation of Federal, State, or other law.

ARTICLE XIII

Risk Allocation and Indemnification

13.1 LICENSOR makes no representation, extends no warranties of any kind, either express or implied, and assumes no responsibility whatever with respect to use, sales, or other disposition by LICENSEE or its vendees or other transferees of products incorporating or made by the use of (1) the LICENSED INVENTION or (2) information, if any, furnished under this AGREEMENT.

13.2 LICENSEE shall indemnify LICENSOR, its officers and employees, and hold them harmless against all liabilities, demands, damages, expenses, or losses including, but not limited to, attorney's fees, court costs, and the like, arising (1) out of the use by LICENSEE or its transferees of the LICENSED INVENTION or information furnished under this AGREEMENT, or (2) out of any sale, use, or other disposition by LICENSEE or its transferees of products, processes, or compositions, made by use of such inventions or information.

13.3 It shall be the sole responsibility of the LICENSEE to ensure that any and all embodiments of the LICENSED INVENTION are safe under all circumstances.

13.4 Independent of, severable from, and to be enforced independently of any other enforceable or unenforceable provision of this AGREEMENT, other than as provided in Sections 13.1 and 13.2, or other than for infringement of one PARTY's intellectual property rights by another PARTY, (including any engagement in licensable activities by licenses beyond the scope of the license provided by this AGREEMENT), neither PARTY will be liable to the other PARTY (nor to any THIRD PARTY claiming rights derived from the other PARTY's rights) for incidental, consequential, special, punitive, or exemplary damages of any kind, including lost profits, loss of business, or other economic damage, and further including injury to property, as a result of breach of any warranty or other term of this AGREEMENT, regardless of whether the PARTY liable or allegedly liable was advised, had reason to know, or in fact knew of the possibility thereof.

ARTICLE XIV

Patent Validity

14.1 If, in any proceeding in which the validity, infringement, or priority of invention of any claim of the LICENSED PATENT to LICENSEE is in issue, a judgement or decree is entered which becomes final (below referred to as a "final judgement"), the construction placed upon any such claim by such final judgement shall thereafter be followed, not only as to such claim but as to all claims to which such construction applies, with respect to subsequently occurring acts. If such final judgement holds any claim invalid, LICENSEE shall be relieved prospectively (1) from including in its reports ROYALTY-BASE PRODUCTS sold or otherwise disposed of covered only by such claim or any broader claim to which such final judgement is applicable, and (2) from the performance of those other acts which may be required by this AGREEMENT only because of any such claim. However, if there are two or more conflicting final judgements with respect to the same claim based on the same grounds or where the same issues were raised, the decision of the higher tribunal shall be followed, but if the tribunals be of equal dignity, then the decision more favorable to the claim shall be followed.

14.2 In the event evidentiary material comes to the attention of the LICENSEE subsequent to the LICENSEE's execution of this AGREEMENT which, in the judgement of the LICENSEE, bears on the validity or scope of any LICENSED PATENT, the LICENSOR will in good faith discuss with the LICENSEE whether such evidentiary material so affects the validity or scope of the LICENSED PATENT to which it is asserted to apply that the terms of the license in respect to such LICENSED PATENT should be modified. 14.3 The LICENSEE, subsequent to the date of its execution of this AGREEMENT, may assert the invalidity of any claim in any LICENSED PATENT, if coupled with or followed by: (a) Withholding, or notice of intention to withhold, or denial of obligation to pay, royalties otherwise payable under this AGREEMENT in respect to the LICENSEE's operations under such claim; or (b) Initiation or participation in a suit challenging or denying the validity of such claim in reference to LICENSEE's operations under this AGREEMENT, that may, at the option of the LICENSOR, be conclusively presumed to constitute LICENSEE's termination, as of the earliest provable date of such withholding, notice, denial, initiation, or participation, of its AGREEMENT including its obligation for payment of royalties due from the date of the termination. ARTICLE XVII

Infringement

17.1 If LICENSEE becomes aware of an infringement or has reasonable cause to believe that there has been an infringement of any LICENSED PATENT, LICENSEE shall notify LICENSOR in writing concerning LICENSEE's knowledge of any infringement or of the reasonable cause for belief of infringement. Such notice should include: an analysis of how the claims of any LICENSED PATENT read-on the allegedly infringing articles; the identity of the alleged infringers; a statement as to whether the alleged infringers are making, using, or selling the allegedly infringing articles; a statement describing the extent of the alleged infringement; and a statement which describes and quantifies the harm being suffered by the LICENSEE as a result of the alleged infringement. If such notice and information are furnished, LICENSOR may volunteer its opinion as to whether reasonable cause exists to believe that there has been an infringement. LICENSEE is authorized under the provisions of Chapter 29 of Title 35, United States Code, or other statutes, (a) to bring suit in its own name, at its own expense, and on its own behalf, for infringement of the LICENSED PATENT, and (b) in any such suit, to enjoin infringement and to collect for its use, damages, profits and awards of whatever nature, recoverable from such infringement, subject to payment of royalties due to NASA, and further, (c) to settle any claim or suit for infringement of the LICENSED PATENT, as by granting a sublicense under this AGREEMENT. With respect to the royalties due to NASA from LICENSEE's successful infringement action, the parties agree to enter into good faith negotiations to arrive at the appropriate amount of royalties due to NASA. The authority to bring suit is subject to the continuing right of the United States to bring suit itself or to intervene in LICENSEE's suit; and, in either event, LICENSEE shall give LICENSOR reasonable notice and assistance.

ARTICLE XVIII

Dispute or Breach

18.1 All disputes concerning the interpretation or application of this AGREEMENT shall be discussed mutually between the PARTIES. Any disputes which are not disposed of by mutual agreement shall be decided by the NASA Associate General Counsel (Intellectual Property), or designee, who shall reduce the decision to writing and mail or otherwise furnish a copy thereof to LICENSEE. LICENSEE may respond to such notice of a decision in accordance with the procedures set forth in Article 19.8.

18.2 In the event of a BREACH of any provision of this AGREEMENT, the NONBREACHING PARTY shall give the BREACHING PARTY notice describing the BREACH and stating that the BREACHING PARTY has thirty (30) days after notice of the BREACH to cure the BREACH or show cause why the AGREEMENT should not be terminated in accordance with Article 19.8.

18.3 If a provision of this AGREEMENT sets forth a cure period for the BREACH in question other than thirty (30) days, then that provision shall take precedence over the cure period set forth in Article 18.2.

18.4 No cure period is required, except as may be otherwise provided in this AGREEMENT, if: (a) this AGREEMENT sets forth specific deadline dates for the obligation allegedly breached; or (b) this AGREEMENT otherwise states that no cure period is required in connection with the termination in question.

18.5 The BREACHING PARTY will be deemed to have cured such BREACH if within the cure period it takes steps reasonably adequate to alleviate any damage to the NONBREACHING PARTY resulting from the BREACH and to prevent a similar future BREACH.

ARTICLE XIX

Termination or Modification

19.1 The PARTIES may terminate or modify this AGREEMENT by mutual consent upon such terms as they may agree in writing.

19.2 Either PARTY may terminate this AGREEMENT by failing to extend the LICENSE TERM, if an extension is provided for in Section 4.1.

19.3 Either PARTY may terminate this AGREEMENT upon the discovery by one PARTY of any intentional MATERIAL false statement or misrepresentation made or submitted by the other PARTY which BREACHES any obligation under the terms of this AGREEMENT or upon the discovery by one PARTY that the other PARTY has committed a MATERIAL breach of a provision of the AGREEMENT.

19.4 LICENSEE may prospectively terminate this AGREEMENT upon ninety (90) days written notice to LICENSOR.

19.5 This AGREEMENT may be terminated by LICENSOR if:

(a) LICENSOR determines that LICENSEE has failed or will fail to achieve and maintain PRACTICAL APPLICATION of the LICENSED INVENTION as provided by Section 5.

(b) LICENSOR determines that LICENSEE has failed or will fail to both reduce to practice and substantially manufacture the LICENSED INVENTION in the United States as provided by Section 6.1

(c) LICENSOR determines that LICENSEE has failed or will fail to meet market demand for the LICENSED INVENTION.

(d) LICENSEE fails to pay royalties and submit reports as provided by ARTICLE VII and VIII.

(e) LICENSOR determines that such action is necessary to meet the requirements for public use specified by Federal regulations issued after the date of the license and such requirements are not reasonably satisfied by LICENSEE.

19.6 LICENSOR may terminate this AGREEMENT if LICENSEE becomes

"INSOLVENT." LICENSEE must notify LICENSOR within thirty (30) days after becoming INSOLVENT. LICENSEE's failure to conform to this requirement shall be deemed a material, incurable breach.

19.7 LICENSEE must promptly inform LICENSOR of its intention to file a voluntary petition in bankruptcy or of another's communicated intention to file an involuntary petition in bankruptcy. LICENSOR may terminate this AGREEMENT upon receiving notice of intention to file. LICENSEE's filing without conforming to this requirement shall be deemed a material, pre-petition incurable breach.

19.8 Before LICENSOR unilaterally modifies, or terminates this AGREEMENT for any cause, LICENSOR will furnish LICENSEE and all SUBLICENSEES of record a written notice stating LICENSOR's intention to modify or terminate the AGREEMENT and the reasons therefor. LICENSEE and SUBLICENSEES of record will be allowed thirty (30) days after: (1) such notice to remedy any BREACH of the AGREEMENT or show cause why the AGREEMENT should not be unilaterally modified or terminated; or, (2) such notice of a decision regarding a dispute, rendered in accordance with Article 18.1, to rebut such decision. A response to a notice of modification or termination or to a notice of a dispute determination should be addressed to the General Counsel, National Aeronautics and Space Administration, Washington, DC 20546. The General Counsel will render a determination based on the LICENSEE'S response within a reasonable time. Absent any response from LICENSEE to the notice regarding the modification, termination and/or dispute determination, the determination by the General Counsel will be final and/or the AGREEMENT will be unilaterally modified or will terminate, effective thirty-one (31) days from the notice of modification, termination or dispute determination, with no right to appeal under Section 19.9.

19.9 LICENSEE may appeal in writing to the NASA Administrator, any determination rendered by the General Counsel in accordance with Section 19.8, within thirty (30) days of notice of such determination. The notice of appeal and all supporting documentation should be addressed to the Administrator, National Aeronautics and Space Administration, Washington, DC 20546. LICENSEE shall be afforded an opportunity to be heard and to offer evidence in support of its appeal. The decision on the appeal shall be made by the NASA Administrator or designee, which shall be the final agency decision from which there will be no further right of administrative appeal. Nothing in this Article shall be interpreted as precluding actions at law.

19.10 If no action is taken under Section 19.9, then the decision to modify or terminate this AGREEMENT shall become final within thirty-one (31) days of the notice of determination rendered by the General Counsel in accordance with 19.8.

19.11 All royalties and reports due up to and including the date of termination of this AGREEMENT are due within thirty (30) days of the date of termination.

ARTICLE XX

Assignment

20.1 Upon written approval by LICENSOR, LICENSEE may assign this AGREEMENT provided that LICENSEE submits to LICENSOR, in advance, a written request for permission to grant the assignment, information that NASA considers necessary to evaluate the proposed assignment, and a copy of the proposed assignment. If LICENSOR approves the assignment as being consistent with the Government's interests, the PARTIES and the assignee will be required to execute a novation agreement. At a minimum, the novation agreement will provide that LICENSEE waives all rights under the license, the assignee assumes all obligations under the AGREEMENT and that LICENSOR recognizes the assignee as the successor in interest to the AGREEMENT.

ARTICLE XXI

Governing Law

21.1 This AGREEMENT will be interpreted and enforced in accordance with United States federal law.

ARTICLE XXII

Independent Entities

22.1 The Parties are separate and independent entities. Except as may be expressly and unambiguously provided in this AGREEMENT, no partnership or joint venture is intended to be created by this AGREEMENT, nor any principal-agent or employer-employee relationship.

22.2 Except to the extent expressly provided in this AGREEMENT, neither PARTY has, and neither PARTY shall attempt to assert, the authority to make commitments for or to bind the other PARTY to any obligation.

ARTICLE XXIII

Effect of Partial Invalidity

23.1 If any one of more of the provisions of this AGREEMENT should be ruled wholly or partly invalid or unenforceable by a court or other government body of competent jurisdiction, and as long as the fundamental objectives of the AGREEMENT can be carried out, then: (a) the validity and enforceability of all provisions of this AGREEMENT not ruled to be invalid or unenforceable will be unaffected; (b) the provision(s) held wholly or partly invalid or unenforceable will be deemed to be amended, and the court or other government body is authorized to reform the provision(s), to the minimum extent necessary to render them valid and enforceable in conformity with the PARTIES' intent as manifested herein; and (c) if the ruling, and/or the controlling principle of law or equity leading to the ruling, is subsequently overruled, modified, or amended by legislative, judicial, or administrative action, then the provision(s) in question, as originally set forth in this AGREEMENT, will be deemed to be valid and enforceable to the maximum extent permitted by the new controlling principle of law or equity.

ARTICLE XXIV

Nonwaiver

24.1 The failure of either PARTY at any time to require performance by the other PARTY of any provisions of this AGREEMENT shall in no way affect the right of such PARTY to require future performance of that provision. Any waiver by either PARTY of any BREACH of any provision of this AGREEMENT shall not be construed as a waiver of any continuing or succeeding BREACH of such provision, a waiver of the provision itself, or a waiver of any right under this AGREEMENT.

ARTICLE XXV

Entire Agreement

25.1 Except as may be expressly provided otherwise herein, this AGREEMENT constitutes the entire agreement between the PARTIES concerning the subject matter thereof. No prior or contemporaneous representations, inducements, promises, or agreements, oral or otherwise, between the PARTIES with reference thereto will be of any force or effect. This AGREEMENT may only be modified by written agreement of the PARTIES.

ARTICLE XXVI

Article Headings

26.1 The ARTICLE headings contained in this AGREEMENT are for reference purposes only and shall not in any way control the meaning or interpretation of this AGREEMENT.

ARTICLE XXVII

Counterparts

27.1 This AGREEMENT may be executed in separate counterparts, each of which so executed and delivered shall constitute an original, but all such counterparts shall together constitute one and the same instrument. Any such counterpart may comprise one or more duplicates or duplicate signature pages, any of which may be executed by less than all of the PARTIES, provided that each PARTY executes at least one such duplicate or duplicate signature page. The PARTIES stipulate that a photostatic copy of an executed original will be admissible in evidence for all purposes in any proceeding as between the PARTIES.
