INSTRUCTIONS
ABC Form 1 - Pages 1 and 2

Current period column: Please report total kernel weight receipts by variety for the current reporting period. For varieties not specifically listed, please report the receipts by listing the variety and total kernel weight under the "others" portion of the form. Add the total kernel weight down to the total for the current period.

Previous period year-to-date total column: This column will be filled in based on your previously submitted receipt reports. Please verify that these numbers are correct prior to signing and submitting the form. If there is a discrepancy, please contact your Almond Board field representative to resolve the problem.

Year-to-date total column: Add current period total to previous period year-to-date total for each variety you have received and add the column down to a current year-to-date total. If you have more "other" varieties than will fit on page 1, please report the overflow on page 2. Then bring the page 2 total forward to the page 2 subtotal line on page 1.

If any entire lot is classified as inedible, report this as a separate item for purposes of the inedible control regulation. When this material is disposed of in oil or feed, it must be reported on a separate ABC Form 8 and the identity inserted.

Form 9 Transfers. Transferring handler deduct tonnage and reference certificate number. Receiving handler add tonnage and reference certificate number. ALL FORM 9 TRANSFERS REQUIRE BOARD APPROVAL. Only entire lots of unprocessed almonds may be transferred.

The Almond Marketing Order, in Section 981.72, requires each handler to tabulate his receipts by varieties and submit reports to the Almond Board. In turn, the Board will compile the data and submit industry-wide reports to the handlers.

Each handler should report their kernel weight, by variety, on ABC Form 1 and deliver it to the Almond Board of California, by the deadline date listed on the operations calendar.
