Margo Schwab, Ph.D.
Office of Management and Budget
725 17th Street, N.W.
Washington, DC 20503

Dear Dr. Schwab:

Attached are three 10-day letters from the staff of the NCHS Questionnaire Design Research Laboratory (QDRL) (Generic clearance OMB 0920-0222). Due to severe time constraints, we have submitted them together.

The first letter describes plans to conduct research to test the Spanish language versions of questions for the National HIV Behavioral Surveillance system for CDC. OMB has already cleared the English-language version.

The second letter describes how the QDRL plans to evaluate questions on Complementary and Alternative Medicine for the 2012 the National Health Interview Survey (NHIS).

The third letter describes research to evaluate the Physician Workflow and Electronic Health Records Adoption Survey, part of the National Ambulatory Medical Care Survey, for the Division of Health Care Statistics.

The total number of burden hours for the three projects is 160 hours with 130 participants (70 participants at 1 hour each and 60 participants at 1.5 hours each).
