Dear Caregiver/Teacher,

This questionnaire is part of an important long-term study of children's early education starting with kindergarten and going through to the fifth grade. We have sent it to you because one or more of the children you watch after or teach are in this study.

The Early Childhood Longitudinal Study, Kindergarten Class of 2010-11 (ECLS-K:2011), is getting information from before- and after-school child care providers and teachers of children who are in the study to understand how what children do early in life relates to how they grow and learn later.

This questionnaire takes about 8 minutes to finish. The information that you give us is being gathered for research purposes only and will be protected from disclosure to the fullest extent allowable by law. We will not tell parents any information you give us or report information about individual caregivers, teachers, children, or programs. What you tell us will be put together with information from other questionnaires for research and statistical reports. Taking part in the study is completely voluntary. You may stop at any time or choose not to answer a question you do not want to answer.

Please put your answers directly on the questionnaire by marking the boxes or writing your answers in the spaces given. Your best guesses are okay as answers.

THANK YOU VERY MUCH FOR YOUR HELP.
