2137-0522 Change Justification.

This request is being submitted to OMB to add the Annual Reports for Gas Distribution and Gas Transmission (both unchanged) which were inadvertently removed in the last approved submission for this information collection.

This submission also includes updated incident report forms/instructions. The updates include the expiration dates of the information collection and revised e-mail addresses.

On the Distribution incident report, a number fix was implemented under Question 4 as follows:

As you can see below, the question is #4 but the sub-numbering is 5.a, 5.b, and 5.c, so I'll need to make this minor adjustment to the OMB approved version and have it reposted on the web. This only impacts the distribution incident form.

<input type="checkbox"/> Valve	4. Specify: <input type="radio"/> Manufacturing defect <input type="radio"/> Other _____ 5.a Valve type: _____ 5.b Manufactured by: _____ 5.c Year manufactured: / / / / /
