The 2010 Census counted every person living in the United States on April 1, 2010. By answering the following questions, you will help ensure that the 2010 Census results are accurate.

Before you answer Question 1, count the people who lived in this house, apartment, or mobile home on April 1, 2010 using our guidelines.

- Count all people, including babies, who lived and slept here most of the time.

The Census Bureau also conducts counts in institutions and other places, so:

- Do not count anyone who lived away either at college or in the Armed Forces on April 1, 2010.
- Do not count anyone who was in a nursing home, jail, prison, detention facility, etc., on April 1, 2010.
- Leave these people off your form, even if they returned to live here after they left college, the nursing home, the military, jail, etc.

The Census Bureau must also include people without a permanent place to stay, so:

- If someone who had no permanent place to stay was staying here on April 1, 2010, count that person.
