04/13/2005

Message from Allison: SAFIS will be rebooted at 3PM today, Wednesday April 13. It should be back up within 10 minutes. Also: the new version of SAFIS 1.4 (implemented 4/6/05) encourages more accurate fisherman data to be entered by dealers. In doing so, users may still enter 'UNKNOWN' fishermen, however any fishermen with a name = UNKNOWN will no longer be included as a frequent fisherman. This will impact existing frequent fisherman lists. Lists of fishermen are updated regularly, however if you

Welcome to the Standard Atlantic Fisheries Information System - SAFIS

The National Marine Fisheries Service requires this information for the conservation and management of marine fishery resources in accordance with the Magnuson-Stevens Fishery Conservation and Management Act. The data reported will be used to develop, implement, and monitor fishery management strategies and for a variety of other uses. Submission is mandatory for those persons falling under the requirements of 50 CFR 648.7 (a). All data submitted will be handled as Confidential material in accordance with NOAA Administrative Orders. Public reporting burden for the survey is estimated to average 2 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to PRA 0648-0228, Northeast Region, NMFS, One Blackburn Drive, Gloucester, MA 01930.

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.
