<center>SECTION SV: SEXUAL VIOLENCE</center>

SV_INTRO
Women and men may experience unwanted and uninvited sexual situations by strangers or people they know well, such as a romantic or sexual partner, friend, teacher, coworker, supervisor, or family member. Your answers will help us learn how often these things happen. Some of the language we use is explicit, but it is important that I ask the questions this way so that you are clear about what I mean. The information you are providing will be kept private. You can skip questions you don't want to answer.

SV
How many people have ever done any of the following things when you didn't want it to happen? How many people have ever…

       [RECORD NUMBER OF PEOPLE FOR EACH ITEM]
       [RANGE 0 – 15 PEOPLE]

SV1   **exposed their sexual body parts to you, flashed you, or masturbated in front of you?**

Sometimes sex happens when a person is unable to consent to it or stop it from happening because they were drunk, high, drugged, or passed out from alcohol, drugs, or medications. This can include times when they voluntarily consumed alcohol or drugs or they were given drugs or alcohol without their knowledge or consent. Please remember that even if someone uses alcohol or drugs, what happens to them is not their fault.

When you were drunk, high, drugged, or passed out and unable to consent, how many people have ever had…?

SV18b   **TRY to have** {if female, fill: **vaginal,**} **oral, or anal sex with you, but sex <u>did not</u> happen?**

Sometimes unwanted sexual contact happens after a person is pressured in a nonphysical way.

SV19 **Doing things like telling you lies, making promises about the future they knew were untrue, threatening to end your relationship, or threatening to spread rumors about you?**
