CF_INTRO1

You have been randomly chosen to participate in an important study. The Centers for Disease Control and Prevention (CDC) is doing a telephone study of 10,000 people. You may have received a letter from us. Men and women age 18 and older will be asked questions about their health and injuries they may have experienced. The data we are collecting are very important, and will be used to guide national policies.

The survey will take between 20 and 25 minutes. We will do this survey over the phone right now or at another time that is better for you. Since some of the questions are personal, we suggest that you be in a private setting during the survey.

There are minimal benefits or risks to being in this voluntary study. In order to keep your information private, the answers you give us will be combined with the answers from other people who are in the survey. No information that could personally identify you will be given to anyone else. You can skip any question or stop the survey at any time.

If you complete the survey, as a token of our appreciation we will send you a check for $10 or make a donation to the United Way on your behalf, whichever you prefer. We will ask your preference at the end of the survey.

If you choose to receive the $10, I will go to a separate computer file after we finish the survey and collect your name and address so that we can mail the check to you. Your name and address will not be connected to the information you provide in the survey, and will be erased from our files at the end of this study.

If you have questions or concerns about participating in the study, you may call the Survey Manager, Susan Twiddy, at 1-877-XXX-XXXX. If you have questions about your rights as a participant, please call the CDC at 1-800-XXX-XXXX.
