# **Consent Form**

#### Study of Sharing to Assess Community Resilience

Identify who is the "head" or "heads" of the household. Give copy of one-page summary about the project to respondent. Read or summarize to person/people to be interviewed.

The University of Alaska Fairbanks and the Traditional Council of this community are partnering in a project on sharing relationships that are part of the subsistence—cash economy of the North Slope and Interior Alaska. The project is funded by the Minerals Management Service — MMS. As a part of the project, I would like to interview you about the ways your household is supported and the ways subsistence foods come into your household.

Many studies have tried to document subsistence, but they have not accounted for the sharing that helps to support families in village Alaska. This questionnaire is different. Similar to other projects, we would like to ask how much fish and game your household harvested last year, who lived in your household, and what kind of jobs and income your family members had last year. But we would also like to ask you about the ways that subsistence foods came into your household – either through sharing, cooperative hunting, exchanges of equipment, gifting, or other forms of help. We are documenting sharing to understand how households manage for environmental and economic changes, such as oil and gas development and climate change. Having this information now will help this village keep track of the changes in the future.

This project involves the villages of Wainwright, Kaktovik and Venetie. It is our goal to interview the head of every household in all three villages.

We expect that the interview will take about 1 to 1 1/2 hours to complete. As a thank you for your time, we would like to give you \$50 per hour of interviewing time, up to a maximum of \$100.

Your participation is completely voluntary. You may choose to not answer certain questions. Your name will remain anonymous. We will not put your name or the name and location of any households in our reports. If you would like to complete this interview in your own language, we will arrange to have a translator join us. Please do not hesitate to ask questions or clarification at any time during the interview. Once the survey is completed, the connection between respondents and responses will be destroyed.

All the information from the project will be returned to the Traditional Councils of each village for its review before the information is released as a report. A summary about the project will be made available to residents of each village through posters, reports, and public meetings. A copy of the summary report will be mailed to you. As well, we will use the information from our study to write papers to be presented at conferences or written for professional journals.

#### To summarize:

- Participation in the interview and parts of the interview is voluntary and anonymity will be maintained.
- Your name will not appear on the survey.
- Neither your name nor the name of anyone else will appear in any reports or papers.
- The Traditional Councils of each community will review the final report before it is released.
- Results from interviews will be summarized, returned to the communities, and distributed for discussion.
- A copy of the summary report will be mailed to you.

► Are you willing to be interviewed?	 □No
Are you willing to be interviewed:	 □140

If NO, stop interview. If YES, continue and read the following example.

PAPERWORK REDUCTION ACT OF 1995 (PRA) STATEMENT: The PRA (44 U.S.C. 3501 et. seq.) requires us to inform you that we collect this information to obtain knowledge of subsistence issues in Alaska communities and how they relate to future oil and gas drilling. Responses are voluntary. Proprietary data are covered under FOIA. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. Public reporting for this study, is estimated to average 1.5 hours per response. This includes the time for reviewing instructions and answering the questions. Direct comments regarding the burden estimate or any other aspect of this form to the Information Collection Clearance Officer, Mail Stop 5438, Minerals Management Service, 1849 C Street, N.W., Washington D.C. 20240

**THANK YOU!** 

The diagram above shows how wild foods were shared among households in Shungnak in 2002. Each box is a household. The lines between the households show the flow of wild foods from one house to another. At a glance, you can see how much sharing there was. Many of the elder households (brown boxes) and single elder households (triangles) are near the center of the diagram, which means they are near the center of the sharing network. The younger households (yellow) tend to be on the edges of the network. As they age, we would expect them to move towards the center.

This diagram is an example of social network analysis. To draw it, we asked questions like:

- Who killed the moose your household used?
- Who cut the fish your household used?
- Who paid your household bills?

Your answers to these questions help us describe sharing and cooperation, important parts of subsistence life. We do not expect you to remember everyone who helped your household. We hope you can remember the most important people.

We do not use names on our surveys. Instead, we have developed codes for everyone in your community. To properly code people who do not live in this community, we do enter names on a tear-off sheet. After non-local names have been coded for anonymity, this sheet will be removed from the survey.

First, I would like to ask about the people in your HH. By this, I mean the people who sleep at your house and are permanent members of your family. This includes college or high school students who return home every summer. I am NOT interested in people who lived with you temporarily, even if they stayed several months. I will not ask questions about them in the rest of the survey.

During the last 12 MONTHS, WHO lived in this HH?

<sup>\*</sup>WIC is The Special Supplemental Nutrition Program for Women, Infants, and Children; \*\* Children's programs like foster care and child support are considered as parent or guardian income, not child income.

NOTE: IF a respondent gives you MONTHLY income, calculate ANNUAL INCOME. This is (monthly amount) x (months received) = (annual amount). For example, if a respondent gets a \$100 pension every month, calculate \$100 x 12 = \$1,200. If respondent get \$1,200 in unemployment for three months, <u>calculate</u> \$1,200 x 3 = \$3,600. If income changes month to month, use typical monthly income.

I'm going to read a list of typical HH bills. Please tell me HOW MUCH your HH spent on each bill in a TYPICAL MONTH last year.

The next section asks about subsistence foods.

For most foods, we will briefly ask how much your HH got last year.

But for six important foods, we will ask about the different ways those foods came into your HH, for example; your own hunting, hunting with others, your contributions to the hunting of other HHs, and sharing.

The 6 foods we will ask about are:

WAINWRIGHT:	VENETIE:	KAKTOVIK:
CARIBOU	CARIBOU	CARIBOU
GEESE	MOOSE	DALL SHEEP
SMELT	DUCKS	GEESE
BELUGA WHALE	GRAYLING	ARCTIC CHAR

# SMELT SOURCES: SHARES FROM FISHING

HH ID

During the last 12 MONTHS, did anyone in your HH

IF NO, go to the next page

IF YES, continue on this page...

INSTRUCTIONS: We want respondents to estimate how many smelt each member of their HH RECEIVED AS A SHARE in the last 12 months, including with rod and reel while fishing with others. We want them to report only THEIR SHARE of the catch. INCLUDE smelt the HH received as a share then gave away, fed to dogs, or lost to spoilage.

share then gave away, fed to dogs, or le	ost to spoilage.

# WHITEFISH SOURCES: HOUSEHOLD'S OWN HARVESTS

HH ID

During the last 12 MONTHS, did anyone in your HH

IF NO, go to the next page.

IF YES, continue on this page...

INSTRUCTIONS: We want respondents to estimate how many whitefish EACH MEMBER OF THEIR HH HARVESTED for subsistence use during the last 12 months, including with rod and reel. INCLUDE whitefish the HH members gave away, even if they gave it away without bringing it home. Include whitefish the HH ate fresh, dried, froze, fed to dogs, or lost to spoilage.

# ARCTIC CHAR SOURCES: SHARES FOR HELPING

HH ID

During the last 12 MONTHS, did anyone in your HH get any SHARES of ARCTIC CHAR because they contributed to the fishing effort of other HHs, but did NOT actually fish with them?.....

N (Circle)

IF NO, go to the next page.

IF IVO, go to the riex				<del></del>						44	- t	
IF YES, continue on	this page				-	-	-				share, note this as a

# BERRY SOURCES: HOUSEHOLD'S OWN HARVESTS

HH ID

During the last 12 MONTHS, did anyone in your HH

IF NO, go to the next page.

IF YES, continue on this page...

INSTRUCTIONS: We want respondents to estimate how many buckets of berries EACH MEMBER OF THEIR HH HARVESTED for subsistence use during the last 12 months. INCLUDE berries the HH members gave away, even if they gave it away without bringing it home. Include berries the HH ate fresh, dried, froze, or lost to spoilage.

HH ID

IF NO, go to the next page.

IF YES, continue on this page ...

Please list the most important HHs that members of your HH provided with fish, game, marine mammals or equipment. Do not include instances of giving that were associated with Thanksgiving or Christmas holidays, community feasts or Nalukatuk.

Enter HH ID codes in the space provided. The map on the following page may help respondents remember HHs they helped.

Now check the boxes to show the goods and services that MEMBERS OF YOUR HH provided to each HH...
