Study of Sharing to Assess Community Resilience

Identify who is the "head" or "heads" of the household. Give copy of one-page summary about the project to respondent. Read or summarize to person/people to be interviewed.

The University of Alaska Fairbanks and the Traditional Council of this community are partnering in a project on sharing relationships that are part of the subsistence–cash economy of the North Slope and Interior Alaska. The project is funded by the Minerals Management Service – MMS. As a part of the project, I would like to interview you about the ways your household is supported and the ways subsistence foods come into your household.

Many studies have tried to document subsistence, but they have not accounted for the sharing that helps to support families in village Alaska. This questionnaire is different. Similar to other projects, we would like to ask how much fish and game your household harvested last year, who lived in your household, and what kind of jobs and income your family members had last year. But we would also like to ask you about the ways that subsistence foods came into your household – either through sharing, cooperative hunting, exchanges of equipment, gifting, or other forms of help. We are documenting sharing to understand how households manage for environmental and economic changes, such as oil and gas development and climate change. Having this information now will help this village keep track of the changes in the future.

This project involves the villages of Wainwright, Kaktovik and Venetie. It is our goal to interview the head of every household in all three villages.

We expect that the interview will take about 1 to 1 1/2 hours to complete. As a thank you for your time, we would like to give you \$50 per hour of interviewing time, up to a maximum of \$100.

Your participation is completely voluntary. You may choose to not answer certain questions. Your name will remain anonymous. We will not put your name or the name and location of any households in our reports. If you would like to complete this interview in your own language, we will arrange to have a translator join us. Please do not hesitate to ask questions or clarification at any time during the interview. Once the survey is completed, the connection between respondents and responses will be destroyed.

All the information from the project will be returned to the Traditional Councils of each village for its review before the information is released as a report. A summary about the project will be made available to residents of each village through posters, reports, and public meetings. A copy of the summary report will be mailed to you. As well, we will use the information from our study to write papers to be presented at conferences or written for professional journals.

To summarize:

- Participation in the interview and parts of the interview is voluntary and anonymity will be maintained.
- Your name will not appear on the survey.
- Neither your name nor the name of anyone else will appear in any reports or papers.
- The Traditional Councils of each community will review the final report before it is released.
- Results from interviews will be summarized, returned to the communities, and distributed for discussion.
- A copy of the summary report will be mailed to you.

► **Are you willing to be interviewed?** Yes No

If NO, stop interview. If YES, continue and read the following example.

PAPERWORK REDUCTION ACT OF 1995 (PRA) STATEMENT: The PRA (44 U.S.C. 3501 et. seq.) requires us to inform you that we collect this information to obtain knowledge of subsistence issues in Alaska communities and how they relate to future oil and gas drilling. Responses are voluntary. Proprietary data are covered under FOIA. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. Public reporting for this study, is estimated to average 1.5 hours per response. This includes the time for reviewing instructions and answering the questions. Direct comments regarding the burden estimate or any other aspect of this form to the Information Collection Clearance Officer, Mail Stop 5438, Minerals Management Service, 1849 C Street, N.W., Washington D.C. 20240

THANK YOU!

ABOUT SOCIAL NETWORK ANALYSIS

The diagram above shows how wild foods were shared among households in Shungnak in 2002. Each box is a household. The lines between the households show the flow of wild foods from one house to another. At a glance, you can see how much sharing there was. Many of the elder households (brown boxes) and single elder households (triangles) are near the center of the diagram, which means they are near the center of the sharing network. The younger households (yellow) tend to be on the edges of the network. As they age, we would expect them to move towards the center.

This diagram is an example of social network analysis. To draw it, we asked questions like:

- Who killed the moose your household used?
- Who cut the fish your household used?
- Who paid your household bills?

Your answers to these questions help us describe sharing and cooperation, important parts of subsistence life. We do not expect you to remember everyone who helped your household. We hope you can remember the most important people.

We do not use names on our surveys. Instead, we have developed codes for everyone in your community. To properly code people who do not live in this community, we do enter names on a tear-off sheet. After non-local names have been coded for anonymity, this sheet will be removed from the survey.

HOUSEHOLD (HH) MEMBERS

HH ID

First, I would like to ask about the people in your HH. By this, I mean the people who sleep at your house and are permanent members of your family. This includes college or high school students who return home every summer. I am NOT interested in people who lived with you temporarily, even if they stayed several months. I will not ask questions about them in the rest of the survey.

During the last 12 MONTHS,
WHO lived in this HH?

JOBS

FOR EACH PERSON IN THE HH, 16 YEARS OLD AND OLDER

HH ID

This page asks about jobs and income. We ask about jobs and income because we are trying to understand all parts of the community economy. Many people use wages from jobs to support subsistence activities.

During the last 12 MONTHS, did any members of your HH earn money from a JOB or from SELF EMPLOYMENT?..... Y N (Circle)

For each member of this HH born before 1994, please list EACH JOB held during the last 12 months. For HH members who did not have a job, write: RETIRED, UNEMPLOYED, STUDENT, HOMEMAKER, etc. There should be ONE ROW FOR EACH JOB held by a member of this HH born before 1994. There should be AT LEAST one row for each member of this HH born before 1994 (this includes anyone who is 16 years old or older).

NOTE: IF a respondent gives you MONTHLY income, calculate ANNUAL INCOME. This is (monthly amount) x (months received) = (annual amount). For example, if a respondent gets a \$100 pension every month, calculate \$100 x 12 = \$1,200. If respondent got \$1,200 in unemployment for three months, calculate \$1,200 x 3 = \$3,600. If income changes month to month, use typical monthly income.

If ALL the equipment in a category belonged to people in other HHs, enter a ZERO. This space is just for equipment owned by members of this HH. Do NOT count equipment that DID NOT WORK at any time during the past year.

If the equipment belonged to someone in another HH, but was used by someone in this HH, answer "YES."

*Local terminology for "snowmobile" is "snowmachine". The term "snowmachine" is used throughout the rest of the survey instrument.

The next section asks about subsistence foods.

For most foods, we will briefly ask how much your HH got last year.

But for six important foods, we will ask about the different ways those foods came into your HH, for example; your own hunting, hunting with others, your contributions to the hunting of other HHs, and sharing.

The 6 foods we will ask about are:

WAINWRIGHT:

CARIBOU
GEESE
SMELT
BELUGA WHALE
BOWHEAD WHALE
BEARDED SEAL

VENETIE:

CARIBOU
MOOSE
DUCKS
GRAYLING
WHITEFISH
BERRIES

KAKTOVIK:

CARIBOU
DALL SHEEP
GEESE
ARCTIC CHAR
BOWHEAD WHALE
BEARDED SEAL

During the last 12 MONTHS, did anyone in your HH receive BELUGA WHALE as their share from hunting together with people from other HHs?..... Y N (Circle)

IF NO, go to the next page.

IF YES, continue on this page...

INSTRUCTIONS: We want respondents to estimate how much beluga whale each member of their HH RECEIVED AS A SHARE in the last 12 months while hunting with others. We want them to report only THEIR SHARE of the hunt. INCLUDE beluga whale the HH received as a share then gave away, fed to dogs, or lost to spoilage.

FOOD SECURITY

HH ID

The questions on this page have been asked all over the United States to find out if Americans have enough to eat. We would like to know if people in your village have enough to eat. I am going to read you FIVE statements about different food situations. Please tell me whether EACH statement was true for your HH in the last 12 months.

Think about all your HH's food, both subsistence and store-bought...

STATEMENT 1. We WORRIED that our HH would not have ENOUGH FOOD.

In the last 12 months, was this ever true for your HH?..... N Y ?

If YES...

...in which months did this happen?..... J F M A M J J A S O N D

...did this happen because your HH couldn't get SUBSISTENCE foods, your HH couldn't get STORE-BOUGHT foods, or your HH couldn't get BOTH KINDS of food?..... SUB STOR BOTH

STATEMENT 2. We could not get the kinds of foods we wanted to eat because of a LACK OF RESOURCES.

By "lack of resources," we mean your HH did NOT have what you needed to get out on the land to hunt, fish, gather OR to buy food at the store.

In the last 12 months, was this ever true for your HH?..... N Y ?

If YES...

...in which months did this happen?..... J F M A M J J A S O N D

...what resources were lacking that prevented your HH from getting the kinds of foods it wanted? (please list responses in space below)

STATEMENT 3. The food we had JUST DID NOT LAST, and we could not get more.

In the last 12 months, was this ever true for your HH?..... N Y ?

If YES, in which months did this happen?..... J F M A M J J A S O N D

Now, think just about your HH's SUBSISTENCE food...

STATEMENT 4. The SUBSISTENCE food we had just did not last, and we could not get more.

In the last 12 months, was this ever true for your HH?..... N Y ?

If YES, in which months did this happen?..... J F M A M J J A S O N D

Now, think just about your HH's STORE-BOUGHT food...

STATEMENT 5. The STORE-BOUGHT food we had just did not last, and we could not get more.

In the last 12 months, was this ever true for your HH?..... N Y ?

If YES, in which months did this happen?..... J F M A M J J A S O N D

If NO statement above WAS TRUE for this HH, go to the next page.

If ANY statement above WAS TRUE for this HH, continue on this page...

In interviews with community members in your village, people identified a number of situations that they are encountering. These situations are linked to climate, development proposals, and economic and social conditions. We are interested in finding out how your family has responded to these situations in the past and in the present, and how your family thinks they will respond in the future.

	Has this situation affected your family PRIOR to the YEAR 2000?	If YES, what did your family do to deal with this situation PRIOR to the YEAR 2000?	Has this situation affected your family during this DECADE, that is, SINCE the YEAR 2000?	If YES, what did your family do to deal with this situation in this DECADE, that is, SINCE the YEAR 2000?
