

## 200% Graduation Rates

### Less-than-4-year Institutions

**--- This Survey Component is Under Development ---**

| Report on your 2005 cohort of full-time, first-time undergraduate students. <b>Data for this cohort were originally reported by your institution in the 2008-09 data collection.</b> |   |  |   |
|--|---|--|---|
| A  | Revised cohort  | Preloaded                                |   |
| B  | Exclusions within 150% of normal time   | Preloaded                                |   |
| C  | Adjusted cohort 150%  | Preloaded                                |   |
| D  | Number of students in the cohort who completed a program within 100% of normal time       | <b>Report this number</b>                | System will calculate 100% graduation rate: $D / C$ |
| E  | Number of students in the cohort who completed a program within 150% of normal time       | Preloaded                                | System will calculate 150% graduation rate: $E / C$ |
| F  | Additional exclusions   | <b>Report this number, if applicable</b> |   |
| G  | Adjusted cohort 200%  | Calculated: C minus F                    |   |
| H  | Number of students in the cohort who completed a program between 150- 200% of normal time | <b>Report this number</b>                |   |
| I  | Total completers within 200% of normal time   | Calculated: E + H                        | System will calculate 200% graduation rate: $I / G$ |

NOTE: Item D will be collected on this component only in 2009-10. Starting in 2010-11, item D will be preloaded from the regular Graduation Rates survey, since it will be collected there starting in 2009-10.
