Agency Information Collection; Activity Under OMB Review; Part 249, Preservation of Records

AGENCY: Research & Innovative Technology Administration (RITA), Bureau of Transportation Statistics (BTS), DOT.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for extension of currently approved collections. The ICR describes the nature of the information collection and its expected burden. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on November 16, 2009 (74 FR 59018).

DATES: Written comments should be submitted by February 19, 2010.

SUPPLEMENTARY INFORMATION:

OMB Approval No. 2138-0006

Title: Preservation of Air carrier Records—14 CFR Part 249.

Form No.: None.

Type of Review: Extension of a currently approved collection.

Respondents: Certificated air carriers and charter operators.

Number of Respondents: 90 certificated air carriers and 300 charter operators.

Estimated Time per Response: 3 hours per certificated air carrier. 1 hour per charter operator.

Total Annual Burden: 570 hours.

Needs and Uses: Part 249 requires the retention of records such as: general and subsidiary ledgers, journals and journal vouchers, voucher distribution registers, accounts receivable and payable journals and ledgers, subsidy records documenting underlying financial and statistical reports to DOT, funds reports, consumer records, sales reports, auditors' and flight coupons, air waybills, etc. Depending on the nature of the document, the carrier may be required to retain the document for a period of 30 days to 3 years. Public charter operators and overseas military personnel charter operators must retain documents which evidence or reflect deposits made by each charter participant and commissions received by, paid to, or deducted by travel agents, and all statements, invoices, bills and receipts from suppliers or furnishers of goods and services in connection with the tour or charter. These records are retained for 6 months after completion of the charter program.

Not only is it imperative that carriers and charter operators retain source documentation, but it is critical that we ensure that DOT has access to these records. Given DOT's established information needs for such reports, the underlying support documentation must be retained for a reasonable period of time. Absent the retention requirements, the support for such reports may or may not exist for audit/validation purposes and the relevance and usefulness of the carrier submissions would be impaired, since the data could not be verified to the source on a test basis.

The Confidential Information Protection and Statistical Efficiency Act of 2002 (44 U.S.C. 3501 note), requires a statistical agency to clearly identify information it collects for non-statistical purposes. BTS hereby notifies the respondents and the public that BTS uses the information it collects under this OMB approval for non-statistical purposes including, but not limited to, publication of both Respondent's identity and its data, submission of the information to agencies outside BTS for review, analysis and possible use in regulatory and other administrative matters.

ADDRESSES: Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Attention BTS Desk Officer.

Comments are invited on: whether the proposed record retention requirements are necessary for the proper performance of the functions of the Department. Comments should address whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Alternatively, comments may be transmitted via facsimile to (202) 493-6216 or (202) 493-6497, or via e-mail to Mr. Brogan at robert.brogan@dot.gov, or to Ms. Toone at kimberly.toone@dot.gov. Please refer to the assigned OMB control number in any correspondence submitted. FRA will summarize comments received in response to this notice in a subsequent notice and include them in its information collection submission to OMB for approval.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Brogan, Office of Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1200 New Jersey Ave., SE., Mail Stop 17, Washington, DC 20590 (telephone: (202) 493-6292) or Ms. Kimberly Toone, Office of Information Technology, RAD-20, Federal Railroad Administration, 1200 New Jersey Ave., SE., Mail Stop 35, Washington, DC 20590 (telephone:

(202) 493-6132). (These telephone numbers are not toll-free.)

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Public Law 104-13, § 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 CFR Part 1320, require Federal agencies to provide 60-days notice to the public for comment on information collection activities before seeking approval for reinstatement or renewal by OMB. 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1), 1320.10(e)(1), 1320.12(a). Specifically, FRA invites interested respondents to comment on the following summary of proposed information collection activities regarding (i) Whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (ii) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (iii) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (iv) ways for FRA to minimize the burden of information collection activities on the public by automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses). See 44 U.S.C. 3506(c)(2)(A)(i)-(iv); 5 CFR 1320.8(d)(1)(i)-(iv). FRA believes that soliciting public comment will promote its efforts to reduce the administrative and paperwork burdens associated with the collection of information mandated by Federal regulations. In summary,

FRA reasons that comments received will advance three objectives: (i) Reduce reporting burdens; (ii) ensure that it organizes information collection requirements in a "user friendly" format to improve the use of such information; and (iii) accurately assess the resources expended to retrieve and produce information requested. See 44 U.S.C. 3501.

Below is a brief summary of the currently approved information collection activities that FRA will submit for clearance by OMB as required under the PRA:

Title: Control of Alcohol and Drug Use in Railroad Operations.

OMB Control Number: 2130-0526.

Abstract: The information collection requirements contained in pre-employment and "for cause" testing regulations are intended to ensure a sense of fairness and accuracy for railroads and their employees. The principal information—evidence of unauthorized alcohol or drug use—is used to prevent accidents by screening personnel who perform safety-sensitive service. FRA uses the information to measure the level of compliance with regulations governing the use of alcohol or controlled substances. Elimination of this problem is necessary to prevent accidents, injuries, and fatalities of the nature already experienced and further reduce the risk of a truly catastrophic accident. Finally, FRA analyzes the data provided in the Management Information System annual report to monitor the effectiveness of a railroad's alcohol and drug testing program.
