

Dear NES Teacher:

Please pass out the NES Student Surveys (Post-Pilot) to students in each class in which you used NES content modules. Please read the following to your students before they complete the survey.

“Thank you for completing this short survey. As you know, your school participated in the NASA Explorer School Pilot project. To understand how to improve this project, NASA is evaluating the NASA Explorer School. We would like your help in evaluating this project by you completing this short survey, similar to a survey you completed a few months ago. Please answer each item honestly.

Your answers to the survey will not be attributed to you or traced back to you in any way. Your answers will remain anonymous.”

After all of your students have completed the survey, please put the surveys in the stamped, addressed envelope and mail to:
