5. If yes to number 4, from what type of institution? (a) What is the approximate average size of loans from each out-of-market source?					

1. Emphasize to the respondent at the beginning of the interview that the interview will be in the interest of public policy and will take only about five to ten minutes. Information will be obtained by telephone from a sample of 25 firms selected randomly from the business white pages of the phone directory or yellow pages if the white pages are not available. The respondents selected from the phone book should reside in the market area defined by the Reserve Bank so that the area included in the phone book does not serve as the market definition from which the sample is drawn.

2. This should include the entire firm rather than an office, branch, or franchise of a larger firm.

3. The Reserve Bank would be required to describe the market area in question.

Yes No

6. During the past two years, has your firm been directly solicited for its loan business by an institution located outside the city/town in which you are located?

10. Does your firm maintain a savings account with a financial institution that has no offices in your city/town?

11. Did you receive any trade credit without which you would have required a loan? [It is very important to determine whether trade credit was a substitute for a loan rather than simply a means of postponing payment.]

12. If yes to number 11, roughly what percentage of your credit (loan) requirements were satisfied by trade credit?

Yes No

13. Does your firm lease any equipment such as an automobile, copying machine, or computer?

14. If yes to number 13, what items are leased?
