Template Instructions

[delete this page after you have read the instructions]

The purpose of the State Preparedness Report template is to provide an easy to use formatted template States can use when developing their State Preparedness Report. Each State Preparedness Report, at a minimum, must contain four sections: Executive Summary, State Overview, Compliance, and Priorities. States can add additional text, tables, charts and graphics. Guidelines and instructions have been included below for States who wish to use the template.

Instructions:

- A word or phrase within a bracket indicates a placeholder with brief instructions. The bracketed text should be deleted when States enter data into the template. [Example: <Insert Narrative Description Here>]
- States may add graphics and logos, a placeholder has been provided for a State insignia on the cover sheet of the report.
- A specific font style and size is not required. States may choose to use the style and fonts included in the template or change the style and size as they wish. See the graphic below for a summary of the font size and style used in the template.

Template Formatting:

- Title Page Header – Franklin Gothic Book font size 28
- Title Page Text – Franklin Gothic Book font size 14
- Document Headers - Franklin Gothic Book font size 16
- Document Sub-Headers – Franklin Gothic Book font size 14
- Document Text – Times New Roman font size 11

Tables:

- In order to type directly into the tables, simply place the cursor in the cell you would like to type and begin typing
- The table will automatically expand as you type
- To hide or display the table's gridlines simply select *Table > Hide/Show Gridlines* from the main menu

NIMSCAST Report

Enclosed please find the NIMS Compliance Status Report for <Insert State Name>. This report reflects the State's implementation of all required ("Tier 1") activities and affirmative responses to the associated performance measurement metrics. Compliance determinations are based on the State's ability to respond affirmatively to metrics associated with Tier 1 activities. Tier 2 activities represent possible future year activities and are not considered critical for current year compliance. Where appropriate, the State has referenced the Corrective Action Plan (CAP) to address weaknesses in implementation activities. Resolution of all CAPs must be provided to the FEMA Regional NIMS Point of Contact (POC) and to the Incident Management Systems Division (IMSD) by January 28, 2008.
