Abstract: The NSGP is an important tool among a comprehensive set of measures to help strengthen the Nation against risks associated with potential terrorist attacks. FEMA uses the information to evaluate applicants'

familiarity with the national preparedness architecture and identify how elements of this architecture have been incorporated into regional/state/local planning, operations, and investments. Information collected provides narrative details on proposed activities (Investments) that will be accomplished with grant funds and prioritizes the list of applicants from each requesting State. This program is designed to promote coordination and collaboration in emergency preparedness activities among public and private community representatives, State and local government agencies, and Citizen Corps Councils.
