Sustainable Broadband Adoption Quarterly Performance Report Introduction

SUBMISSION REQUIREMENTS:

All Broadband Technology Opportunities Program (BTOP) grant recipients are required to complete a quarterly performance report. The attached performance report form must be completed and submitted after the end of every quarter, and reports must be submitted separately for each BTOP award. The prime recipient is solely responsible for the accurate completion and timely submission of this form.

DEADLINE:

All recipients are required to submit their quarterly performance report by 11:59pm ET on the 30th calendar day after the fiscal quarter ends (for example, if the fiscal quarter ends on June 30, performance reports are due no later than 11:59pm ET on July 30). The timely submission of performance reports is a requirement of all BTOP awards as stated in the special award conditions. Incomplete submissions will be sent back to the recipient for further information.

COMPLETING THE PERFORMANCE REPORT:

The BTOP performance report form consists of three main sections:

- Section 1: General Information
- Section 2: Report Data Fields
- Section 3: Budget Data Fields

Each question must be answered fully and accurately (within word limits). If your answer to certain questions does not fit in the space provided, please provide additional information in a separate document or spreadsheet, using the format provided in the performance report form. If particular questions do not apply to your project, please write "N/A." All fields should be filled out with the requested data or "N/A." Please note that to the extent that only your subrecipient, contractor, and/or subcontractor has access to any of the information requested in the performance report, the prime recipient is responsible for collecting this information and submitting it to NTIA.

Please reference the attached line item instructions for assistance. If you have additional questions, please contact your assigned Federal Program Officer.

DATA REVIEW:

Program Office staff will be responsible for reviewing performance reports and may need to follow up with recipients regarding the submitted data. Recipients must promptly respond to any and all Program Office follow-up questions regarding the submitted data; in some cases, recipients will be required to revise and re-submit performance reports. The data provided will be compared to each recipient's Baseline Project Plan and will help the Program Office monitor the progress and performance of each BTOP project.

All progress reports will be made publicly available via the Internet. To the extent that recipients believe that the information they are providing is confidential, recipients may make a request for such information to be kept private and identify any information they believe should not be released to the public. They should also file both a redacted and an unredacted version of their report. Recipients should note, however, that the Recovery Act requires substantial transparency and that NTIA may not necessarily approve such requests. If NTIA does approve, the agency will keep such information private from public disclosure to the extent permitted by law, including the Freedom of Information Act, as amended (5 U.S.C. 552), the Trade Secrets Act, as amended (18 U.S.C. 1905), and the Economic Espionage Act of 1996 (18 U.S.C. 1831 et seq.).
