Items 1-12; 18-20 use a 5 point Likert scale (strongly agree – strongly agree) (3 = neutral)

Item 15 uses a 5 point Likert scale (very difficult – not difficult at all)

Item 16 (items to choose: didn't have transportation, I was tired, I was in another city, etc.)

This assessment measures: 1) the usability of the content and material; 2) user-friendliness of the presentation, delivery format, and facilitator; 3) credibility of the examples used; 4) participant ratings of the competence, credibility, and empathy of the facilitator, and 5) comprehensibility and readability of the content. Participants will also rate how easy or hard it was to attend the sessions and the barriers to attendance. So,

the higher the score, the more acceptability (\*Starred/highlighted items that will need to be reverse coded).
