INFORMANT
ADDRESS
ADDRESS

Dear INFORMANT:

We would like to express our sincerest sympathies for your loss. We are writing on behalf of the National Heart, Lung and Blood Institute's Jackson Heart Study to ask for your help. The Jackson Heart Study was designed to measure the rates of heart disease in the Hinds, Rankin and Madison counties. Your name is listed as an informant on the death certificate of **PARTICIPANT** who passed away on **DATE** and was a participant in the Jackson Heart Study. We would like to explain more about the project and ask a few medical questions about the decedent but have been unable to find your telephone number. Please help us in carrying on **(Name?)'s** Legacy of Health for African Americans by providing us with the following valuable information for the Jackson Heart Study.

Could you take a few minutes to fill out and return the enclosed form to us? The information needed will be used for statistical purposes only and will remain **strictly** confidential. It will contribute to our efforts of understanding heart disease and to prevent its occurrence in the future. Your assistance in our research is entirely voluntary.

If you have any questions or would like to give us this information over the telephone, please call (601)979-8767. Thank you for your cooperation in this study.

Sincerely,

Herman A. Taylor Jr., MD, MPH
Professor
Director and Principal Investigator, Jackson Heart Study
