I. Abstract

BIA is seeking renewal of the approval for the information collection conducted under 25 CFR 162, Leases and Permits, for the review and approval of leases and permits on land the United States holds in trust or restricted status for individual Indians and Indian tribes. This information collection allows BIA to review applications for leases and permits, modifications, and assignments and to determine:

- (a) Whether or not a lease may be approved or granted;
- (b) The value of each lease;
- (c) The appropriate compensation to landowners; and
- (d) Provisions for violations of trespass.

Approval for this collection expires August 31, 2010. No third party notification or public disclosure burden is associated with this collection. There is no change to the approved burden hours for this information collection.

II. Request for Comments

The BIA requests that you send your comments on this collection to the locations listed in the **ADDRESSES** section. Your comments should address: (a) The necessity of the information collection for the proper performance of the agencies, including whether the information will have practical utility; (b) the accuracy of our estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) ways we could enhance the quality, utility and clarity of the information to be collected; and (d) ways we could minimize the burden of the collection of the information on the respondents, such as through the use of automated collection techniques or other forms of information technology.

Please note that an agency may not sponsor or conduct, and an individual need not respond to, a collection of

information unless it has a valid OMB Control Number.

It is our policy to make all comments available to the public for review at the location listed in the **ADDRESSES** section during the hours of 9 a.m.–5 p.m., Eastern Time, Monday through Friday except for legal holidays. Before including your address, phone number, e-mail address or other personally identifiable information, be advised that your entire comment—including your personally identifiable information—may be made public at any time. BILLING CODE 4310-W7-P

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

[INT-FES 10-43]

Minidoka Dam Spillway Replacement, Minidoka County, ID

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of availability of the Final Environmental Impact Statement (FEIS).

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act (NEPA) of 1969, as amended, the Bureau of Reclamation (Reclamation) is notifying the public that it has prepared a FEIS on the proposed Minidoka Dam Spillway Replacement. The U.S. Fish and Wildlife Service (Department of Interior) and Rural Development (Department of Agriculture) are cooperating agencies under NEPA. Alternatives considered in the FEIS are the No Action, as required under NEPA; total replacement of the spillway and headgate structures; and replacement of just the spillway. Total replacement of the spillway and headgate structures is the preferred alternative. Proposed changes in operations following construction are also evaluated, as is designation of special use areas. Reclamation published a Draft EIS in the **Federal Register** on December 11, 2009 (74 FR 65783) with a public comment period ending on February 5, 2010. The Final EIS includes written responses to all public comments on the Draft EIS. Revisions were made in the FEIS to incorporate responses to comments. In response to comments an adaptive management approach, which includes monitoring of effects resulting from changes in operations, has been added and proposed changes to operations will be made over a 4-year period. These revisions do not significantly change the analysis or

results presented in the Draft EIS. However, if monitoring under the adaptive management approach shows different impacts than are documented in this FEIS, and changes to proposed operations (as discussed in this FEIS) are made as a result of monitoring, additional NEPA compliance will be conducted to document those changes and/or impacts.

DATES: Reclamation will not make a decision on the proposed action until at least 30 days after filing of the FEIS with the Environmental Protection Agency. After the 30-day waiting period, Reclamation will complete a Record of Decision. The Record of Decision will identify the selected action for implementation and will discuss factors and rationale used in making the decision.

ADDRESSES: Bureau of Reclamation, Snake River Area Office, Attention: Allyn Meuleman, Activity Manager, 230 Collins Road, Boise, ID 83702-4520. Comments may also be submitted electronically to minidoka_dam_eis@usbr.gov.

FOR FURTHER INFORMATION CONTACT: Allyn Meuleman, (208) 383-2258, fax: (208) 383-2237 or at the above address. The FEIS and other information on this project can be found at: <http://www.usbr.gov/pn/programs/eis/minidokadam/index.html>.

SUPPLEMENTARY INFORMATION: Minidoka Dam impounds Lake Walcott and is a feature of Reclamation's Minidoka Project. They are located on the main stem Snake River about 18 miles northeast from the city of Burley, ID within the Minidoka Wildlife Refuge. After over 103 years of continued use, the over 2000-foot long concrete spillway at the Minidoka Dam has reached the end of its functional lifespan. The concrete that forms the spillway crest and the piers of the pier-and-stoplog structure shows extensive visible deterioration at numerous locations. In addition, the potential for ice damage to the stoplog piers requires that reservoir water levels be dropped each winter. The headgate structures at the North Side Canal and South Side Canal also show serious concrete deterioration similar to that seen along the spillway. The current conditions of the Minidoka Dam spillway and headgate structures present increasingly difficult reliability and maintenance problems. If structural problems are not corrected there is potential of partial or complete failure of the spillway and headgates. If these failures occur, Reclamation may not be able to meet contractual obligations for water

delivery, power generation and Reclamation's commitments to deliver flow augmentation water under the Nez Perce Settlement Agreement and the Endangered Species Act.

Public Review Locations:

The FEIS is available for public inspection at the following locations:
