Dear Ms. Walsh:

On behalf of the American Society of Crime Laboratory Directors / Laboratory Accreditation Board, I would like to take this opportunity to endorse the 2009 Census of Publicly Funded Forensic Crime Laboratories. I participated as part of the pilot test of this census, and am impressed with its thoroughness.

The data collected is useful to ASCLD/LAB and is useful to our client laboratories. The data will include laboratory staffing and caseloads managed by the laboratories in the various categories of testing. Laboratory management will be able to see how their laboratories compare in terms of caseloads, staffing and budget with national averages.

The data that will be collected is not redundant with data currently collected by ASCLD/LAB. Although we collect staffing data from our client laboratories, we are not currently compiling data that would include caseloads and budgets.

We appreciate your undertaking this valuable project.

Sincerely,

Michael J. Grubb  
Chair, ASCLD/LAB Board of Directors
